JEREMIAH W. (JAY) NIXON
GOVERNOR

LAWRENCE G. REBMAN
DEPARTMENT DIRECTOR

January 29, 2013

The Honorable Jeremiah W. (Jay) Nixon
Governor of Missouri
State Capitol, Room 218
Jefferson City, MO 65101

Dear Governor Nixon:

I am pleased to submit the proposed fiscal year 2014 budget for the Missouri Department of Labor and Industrial Relations. As identified in the Department's Vision and Mission, it will remain dedicated to promoting and protecting labor and industry with the vision of employees and businesses succeeding together in safe and healthy workplaces free from unlawful discrimination.

After reviewing core resources and operations, we have reallocated core resources within and between various budgeting organizations. The core reallocations allow the Department to comply with its federal cost allocation plans and reallocate appropriation authority to needed areas.

The Department's FY 2014 budget request includes open-ended appropriations for the Divisions of Workers' Compensation and Employment Security. The Department is requesting open-ended appropriations for refunds, interest payments, benefit payments and related transfers that cannot be easily estimated for FY 2014.

The Department is requesting new appropriation authority to proceed with its Unemployment Insurance Modernization Project in cooperation with Office of Administration, Information Technology Service Division. In addition, recent legislation created the Martin Luther King Jr. State Celebration Commission Fund which will receive contributions from the sale of commemorative license plates. The Department is requesting an initial appropriation from this new fund.

We welcome the opportunity to discuss these budget issues with you in further detail. Please feel free to contact me at (573) 751-9691 should you have questions or need additional information.

Sincerely,

LAWRENCE G. REBMAN
Director

2. CORE DESCRIPTION

The Director and Staff provides support functions to the various departmental agencies; including administrative services, financial management, human resources, legal services, public information, strategic planning and research and analysis. The cost of these administrative functions is shared among the programs within the department that benefit from these services through the Administrative Fund Transfer.

The DOLIR Administrative Fund is classified as a federal fund; however, funding sources via transfer are: General Revenue \$312,868 (2.77%); Workers' Comp \$1,852,735 (16.38%); Special Employment Security \$100,000 (0.88%); and Federal funds \$9,047,110 (79.97%). The Administrative Fund Transfer Core Requests appear later in the Budget Request. Amounts transferred include monies to pay salaries, employee fringe benefits and expense & equipment of ITSD staff paid from this fund but budgeted in Office of Administration (OA). In addition, this fund pays to OA, Facilities Management, Design and Construction fees for the operation of the state-owned buildings, which appear in a HB 13.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Director and Staff pays its Personal Services and Expense and Equipment expenditures from the Department of Labor and Industrial Relations (DOLIR) Administrative Fund. In compliance with its federal cost allocation plan, the Department transfers monies into this fund from its four funding sources: General Revenue, Federal, Workers' Compensation and Special Employment Security funds. By using the DOLIR Administrative Fund, the Department complies with the cost allocation requirements more efficiently in payment and payroll processing and procurement. In fact, the DOLIR Administrative Fund reduces data entry by at least 67%. Fiscal, payroll, and procurement staff can input one-line accounting distributions rather than three-line entries, which were entered when costs were allocated over three funds for each transaction.

The transfers include amounts necessary to meet required fringe benefit transfers for the fund, which appear in HB 5.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Office of Administration, Division of Budget and Planning calculated the 2% Pay Plan adjustment beginning January 1, 2014 which totaled approximately \$ 22,373 for the Director and Staff. See the Decision Item under *Department Wide* for the Department portion. In addition, the Department must transfer monies into the DOLIR Administrative Fund for the related fringe benefit costs. The fringe benefit costs are OASDHI, Retirement, Retiree Medical Insurance, Retiree Basic Life Insurance and Long-Term Disability, totaling 27.11%. The amount needed for fringes benefits would be \$ 6,065 for the Director and Staff.

The transfer by fund source would be calculated as follows: General Revenue \$ 1,430 (5.03%), DLS Federal \$478 (1.68%), Workers' Compensation \$ 4,721 (16.60%), and the Unemployment Compensation Admin Fund \$21,809 (76.69%). The percentages represent each fund's share of the DOLIR Personal Services Administrative Fund Transfer.

2. CORE DESCRIPTION

The OA, ITSD DOLIR pays the majority of its Personal Services and some of its Expense and Equipment expenditures from the Department of Labor and Industrial Relations (DOLIR) Administrative Fund. OA ITSD Personal Services, Fringe Benefit and Expense & Equipment appropriations from the DOLIR Administrative Fund are expected to be approximately \$5,670,757. In compliance with its federal cost allocation plan, the Department transfers monies into this fund from three funding sources: General Revenue, Federal and Workers' Compensation funds. By using the DOLIR Administrative Fund, the Department complies with the cost allocation requirements more efficiently.

The transfers include amounts necessary to meet required OA ITSD fringe benefit transfers for the fund, which appear in HB 5.

In addition, OA Facilities Management, Design & Construction charges the DOLIR Administrative Fund directly for state-owned building operational costs. The Department expects charges of approximately \$229,000 in FY 2013.

 - (2) In FY 2011, DOLIR requested additional transfer authority to meet employee fringe benefit requirements.
 - (3) In FY 2012, DOLIR requested additional transfer authority to meet expected costs in OA ITSD and OA FMDC.
 - (4) In FY 2013, DOLIR requested additional transfer authority to meet expected costs related to COLAs and other expenses.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The OA, ITSD DOLIR pays its Personal Services and Fringe Benefit expenditures from the Department of Labor and Industrial Relations (DOLIR) Administrative Fund. In compliance with its federal cost allocation plan, the Department transfers monies into this fund from its four funding sources: General Revenue, Federal, Workers' Compensation and Special Employment Security funds. By using the DOLIR Administrative Fund, the Department complies with the cost allocation requirements more efficiently in payment and payroll processing and procurement.

The transfers include amounts necessary to meet required fringe benefit transfers for the fund, which appear in HB 5.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Office of Administration, Division of Budget and Planning calculated the 2% Pay Plan adjustment beginning January 1, 2014 which totaled approximately \$ 28,804 for the Office of Administration, Information Services Technology Division (ITSD). See the Decision Item under *Department Wide* for the Department portion. In addition, the Department must transfer monies into the DOLIR Administrative Fund for the related fringe benefit costs. The fringe benefit costs are OASDHI, Retirement, Retiree Medical Insurance, Retiree Basic Life Insurance and Long-Term Disability, totaling 27.11%. The amount needed for fringes benefits \$ 7,809 for ITSD.

The transfer by fund source would be calculated as follows: General Revenue \$ 1,842 (5.03%), DLS Federal \$ 615 (1.68%), Workers' Compensation \$ 6,078 (16.60%), and the Unemployment Compensation Admin Fund \$ 28,078 (76.69%). The percentages represent each fund's share of the DOLIR Personal

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 63701C	DEPARTMENT: DEPT OF LABOR AND INDUSTRIAL RELATIONS
BUDGET UNIT NAME: Labor and Industrial Relations Commission	DIVISION: Labor and Industrial Relations Commission

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The Labor and Industrial Relations Commission is requesting 10% flexibility of Fund 0101 (Approps 3092 and 3093). 2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

3. Please explain how flexibility was used in the prior and/or current years.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

Program Name: Prevailing Wage

Program is found in the following core budget(s): Division of Labor Standards Administration

1. What does this program do?

This program establishes the lowest wage rate that must be paid to workers on public works construction projects in Missouri, such as bridges, roads, and government buildings. The prevailing wage rate differs by county and for different types of work. Communication with interested parties occurs daily to assist in achieving voluntary compliance. The Division provides notice of these prevailing wage rates to public bodies each year in an Annual Wage Order, and to the Missouri State Highway and Transportation Commission in the form of the General Wage Order. The Division's enforcement of the prevailing wage supports worker health and pension benefits, increases general revenue, supports apprenticeship training, lowers occupation injuries, and ensures that construction is a highly trained occupation.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

This program is mandated under Chapter 290, RSMo.

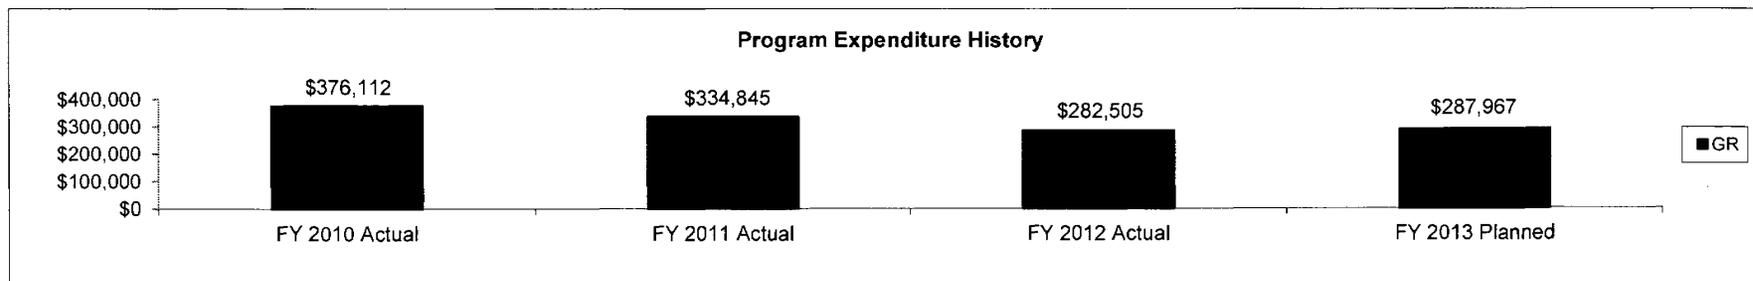

3. Are there federal matching requirements? If yes, please explain.

2. CORE DESCRIPTION

The On-Site Safety and Health Consultation Program is 90% funded by the Occupational Safety and Health Administration (OSHA) with a 10% required State match, which is funded from Workers' Compensation (0652). The program provides a state administered, no-cost consultative service for assisting Missouri's small employers in achieving compliance with OSHA's safety and health standards. The program assists employers in avoiding federal fines and penalties and in providing a healthful and hazard-free place of employment for Missouri workers. This ultimately assists in reducing occupational accidents and illnesses. Occupational safety and health consultants visit workplaces and assist employers with safety and health hazard recognition, evaluation and control at their actual work facility. The program also informs employers of overall program safety and health management techniques and provides safety and health employee training designed to control hazards at the worksite.

In FY 2009, the program saved the businesses it served approximately \$3.7 million dollars in possible OSHA fines for serious hazards.
 In FY 2010, the program saved the businesses it served approximately \$3.6 million dollars in possible OSHA fines for serious hazards.
 In FY 2011, the program saved the businesses it served approximately \$4.7 million dollars in possible OSHA fines for serious hazards.
 In FY 2012, the program saved the businesses it served approximately \$4.8 million dollars in possible OSHA fines for serious hazards.

2. CORE DESCRIPTION

The Mine Safety and Health Training Program is 80% funded by the federal Mine Safety and Health Administration (MSHA) with a 20% required State match, from the Workers' Compensation Fund (0652). The program provides the new miner with the initial regime of safety and health training courses, first aid, cardiopulmonary resuscitation, mine rescue, miner's rights and Hazards Associated with the Task Assigned. These are the tools a miner must have before he or she is allowed to start work. Each year thereafter, the miner must receive an eight hour refresher course of those same topics and any topic that is necessary to stop a trend of accidents, injuries or fatalities. These topics are site specific and tailored to the type and scope of the mining operation. The training is mandated by the Mine Act of 1977, Title 30 Code of Federal Regulations Parts 46, 48, 49, 56/57, 71, and 75.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

Program Name: Mine Safety and Health Training

Program is found in the following core budget(s): Mine Safety and Health Training

1. What does this program do?

This program trains and retrains miners in the practice of implementing safe and healthy working habits in the mining workplace. Each miner in Missouri has to be compliant in the training rules and regulations of the Mine Safety and Health Administration (MSHA) to be able to work in the mine. Each miner must receive an initial regimen of safety and health training and an annual refresher thereafter. Program instructors travel to the mine site, conduct a safety and health audit, prepare lesson plans that are site specific and correspond to the training plan of the company and then present the training topics to the miners. The program aids in the reduction of accidents, injuries and fatalities and assists mine owners in avoiding costly fines and penalties from the federal Mine Safety and Health Administration (MSHA).

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

This program is federally mandated under CFR 30 Parts 46, 48, 49, 56, 57 and 75 and Section 293.520 RSMo.

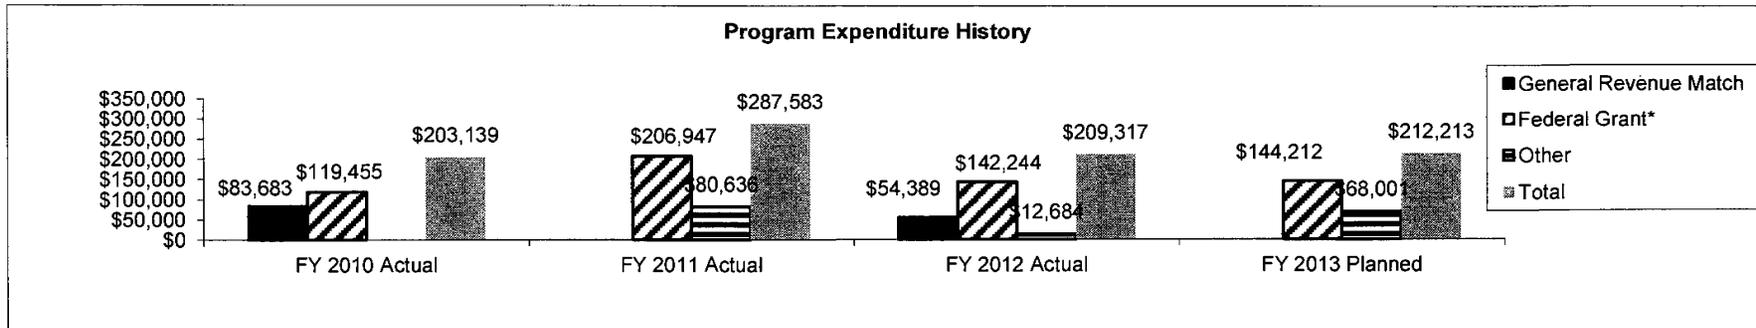

3. Are there federal matching requirements? If yes, please explain.

Yes, this program is a 80% federal/20% state match.

4. Is this a federally mandated program? If yes, please explain.

MSHA requires training be provided under the Mine Act of 1977 or the mine could be closed down.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

*Expenditures based on actual annual Mine Safety Training Grant.

6. What are the sources of the "Other " funds?

Workers' Compensation (0652)

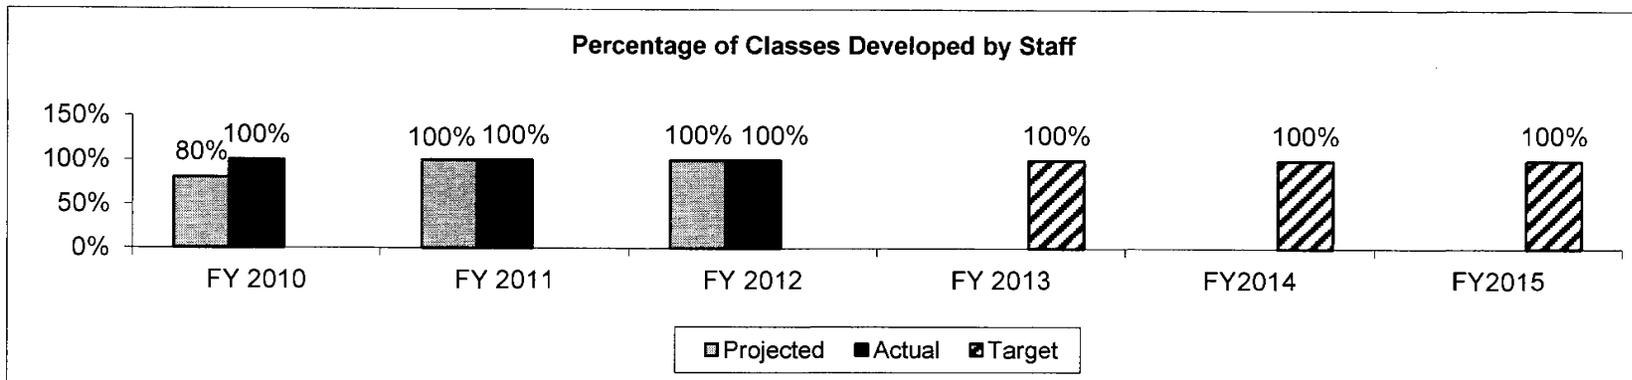

PROGRAM DESCRIPTION

7a. Provide an effectiveness measure.

7b. Provide an efficiency measure.

There was an increase of \$4.13 per miner between FY2010 and FY2011 due in part to higher fuel costs and other costs incurred during travel such as lodging and meal reimbursements. The increase in match is reflective of the transfer of half the program manager's salary and not of these increased costs. It is also reflective of the extra time spent training by the program manager.

2. CORE DESCRIPTION

The State Board of Mediation is a quasi-judicial Board that administers the Public Sector Labor Law, which covers many public employees who seek union representation. The Board determines an appropriate bargaining unit of employees based on whether or not they share a community of interest. Also, the program determines majority representative status by conducting a secret ballot election. Jurisdiction encompasses all counties, municipalities, school districts, and department of state government with a few exclusions.

2. CORE DESCRIPTION

The workers' compensation system ensures that an employee who sustains an injury receives medical treatment, wage loss replacement benefits, disability benefits and death benefits, as required by law. The Division provides various options to resolve disputes that may arise between the injured employee and the employer/insurer, including adjudication services through its eight offices. The Division regulates individual and groups/trusts who have been authorized to self-insure their workers' compensation obligations, investigates allegations of workers' compensation fraud and noncompliance. At the requisition of the Division, warrants on the state treasurer for the payment of compensation and benefits from the second injury fund (SIF) are issued. The Division also administers the Tort Victims' Compensation program.

The Division is transferring \$50,000 into the Kid' Chance Scholarship Fund as required by HB 2191, Section 173.258, RSMo.

HB 583 enacted by the General Assembly in 2007 allows parties aggrieved by Department of Public Safety's Crime Victims' Compensation Program decisions to request a hearing before one of the Division's ALJs.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

Program Name: Workers' Compensation

Program is found in the following core budget(s): Workers' Compensation Administration

1. What does this program do?

The workers' compensation program processes all reports of job-related injuries and formal claims for compensation filed with the Division of Workers' Compensation (Division) under Missouri's workers' compensation law. The program also provides mediation services to resolve disputed issues between an employee and an employer or insurer. It administers the rehabilitation of seriously injured workers, resolves disputes concerning the reasonableness of medical fees and charges, reviews and approves applications by employers or group trusts for self-insurance authority, investigates allegations of workers' compensation fraud and noncompliance, and processes benefit payments from and collection of surcharge payments to the Second Injury Fund.

This program also administers the Tort Victims' Compensation program. The Tort Victims program processes applications for benefits and issues administrative determinations that may compensate people who have been physically injured due to the negligence or recklessness of another and who have been unable to obtain partial or full compensation pursuant to a court judgment because the party at fault (the "tortfeasor") had no insurance, has filed for bankruptcy, or for other reasons as specified by law. This program also administers the Line of Duty Compensation Fund, which provides a \$25,000 benefit to the estate of any Public Safety Officer killed in the line of duty.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

This program is mandated under Chapter 287 RSMo.

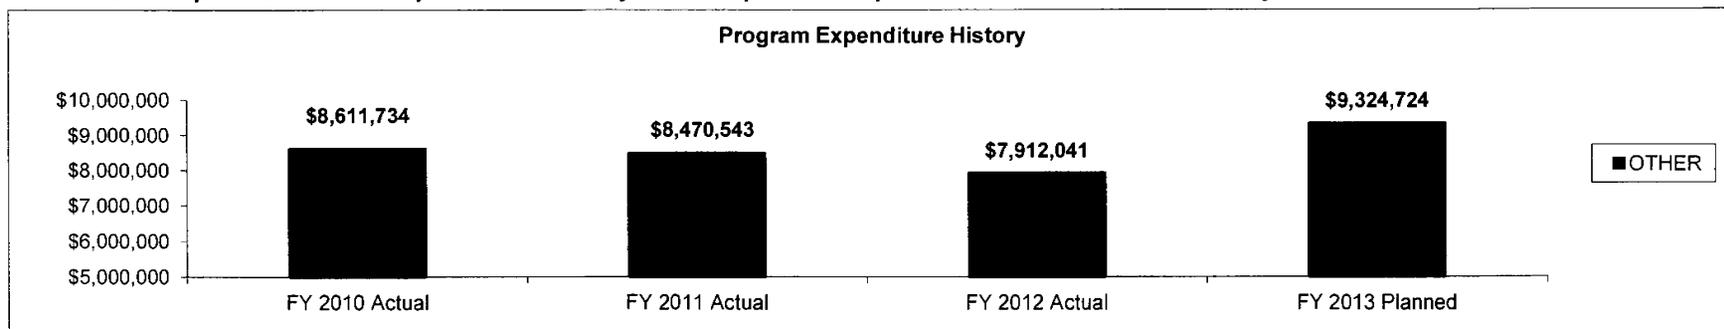

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION

The Line of Duty Compensation Fund is enacted through section 287.243 RSMo after having been passed in HB 580. The Line of Duty Compensation Fund (0939) is to provide monetary support to the families of emergency personnel killed in the line of duty as set forth in §287.243 RSMo. The Division of Workers' Compensation is to administer this fund. A claim for compensation under this section shall be filed by the estate of the deceased with the Division of Workers' Compensation not later than one year from the date of death of the emergency personnel. If a claim is made within one year of the date of death of the emergency personnel killed in the line of duty, compensation shall be paid, if the Division finds that the claimant is entitled to compensation under this section.

This bill was signed into law on June 19, 2009 with an emergency clause.

The amount of compensation paid to the claimant shall be \$25,000, subject to appropriation, for death occurring on or after the effective date of this section.

Since the Dept. is statutorily required to pay benefits awarded, we are requesting an open ended appropriation.

The Line of Duty Compensation Fund is enacted through section 287.243 RSMo after having been passed in HB 580. The Line of Duty Compensation Fund (0939) is to provide a \$25,000 benefit to the family of emergency personnel killed in the line of duty as set forth in §287.243, RSMo.

This bill was signed into law on June 19, 2009 with an emergency clause. The current fund balance is \$0. As authorized in the statute section, the Division is requesting an open-ended General Revenue Fund Transfer appropriation allowing additional monies to be transferred as needed, providing the monies necessary to pay Claims that are currently pending before the Division and for Claims that may be filed with the Division in FY2014, and determined to be eligible for compensation in the absence of the receipt of any other monies, including voluntary contributions, gifts, or bequests to the fund. No amounts would be transferred unless needed and only in the amount necessary to pay benefits.

Since the Dept. is statutorily required to pay benefits awarded, we are requesting an open ended appropriation.

2. CORE DESCRIPTION

When an employee sustains a compensable work injury and the combined effect of the work-related injury and prior disability results in permanent total disability, or increased permanent partial disability, the employer at the time of the last injury, is liable only for compensation due from the most recent injury. The remaining compensation to the employee is paid from the Second Injury Fund (SIF). The Missouri State Treasurer's Office is the custodian of the SIF and the Missouri Attorney General's Office provides legal services. The benefits paid from SIF are disability, death, physical rehabilitation, second job wage loss benefit, and medical bills. The SIF is financed by a surcharge on employers' workers' compensation premiums and equivalent premiums for self-insured employers. Per SB1 &130 in 2005, the surcharge rate has been capped at 3% and can be reduced or suspended when the balance in the SIF exceeds a certain amount.

The following agencies also have appropriations from the Second Injury Fund: OA \$ 1,362,357 Attorney General's Office \$ 3,168,904 (FY13)

2. CORE DESCRIPTION

The Division of Employment Security (DES) administers the state's unemployment insurance (UI) program. The UI Program provides a measure of protection against loss of wages for workers who become unemployed through no fault of their own. The UI benefits paid to eligible workers assists Missouri's economy during periods of economic downturn by helping stabilize the level of consumer purchasing power. As a part of the state UI program, the DES contributions staff collects the state UI tax and wage item data regarding the amount of wages paid to each individual reportable worker. The funds included in this appropriation also finance the administrative cost of operating various related federal programs, such as Disaster Unemployment Assistance (DUA) and Trade Adjustment Assistance (TAA).

Missouri's unemployment rate for December 2012 was 6.7 percent. This is 3 percentage points lower than the highest unemployment rate of 9.7 percent that Missouri encountered during the most recent economic downturn.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

In FY 2008, HB2041 created the Unemployment Automation Fund (Fund 0953) which, over a three year period, collected funding for the UI Modernization Project. A new decision item appropriated \$5,000,000 in FY 2009 in the Office of Administration (House Bill 5) for the DES Computer System. Originally funded from Special Employment Security (Fund 0949), an FY 2010 supplemental changed the funding source of the ITSD appropriation to the Unemployment Automation Fund. ITSD issued a Request For Proposal for the UI Modernization Project in June 2012, and awarded the contract on December 27, 2012. Work will begin in FY 2013 using this ITSD appropriation.

This NDI will allow DOLIR to obligate and spend Federal ARRA Funds (2272) to prevent those funds from lapsing and Unemployment Automation Funds to meet expected FY 2014 requirements. Additional Federal Unemployment Insurance IT Only Carryforward funds will be expended through OA ITSD appropriations to supplement the UI Automation Fund in the completion of this project.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The UI Modernization Project contract will cost between \$24 and \$27 million, depending on whether the state or the vendor purchases the hardware required for the contract. Based on the contract, total projected costs in FY 2014 are \$14,628,795. Existing appropriation authority of \$4,998,225 in OA ITSD (Agency 300) will be used in addition to this request.

ITSD has indicated they will need to devote 16 ITSD FTE to this project to work with the contractors. Costs are figured based on 34 contract staff, 8 vacant ITSD FTE which will be assigned to the project and an additional 8 existing ITSD FTE which will be redirected to the project. Therefore in FY 2014, no additional FTE are requested for this project.

Until the contract is underway, costs are a rough estimate and determining in what fiscal year funding will be needed is extremely difficult. Based on estimates from ITSD this NDI will provide:

Office supplies for 34 contracting staff and 8 vacant ITSD staff at a rate of \$345 per year. The remaining 8 FTE are assumed to be existing ITSD staff and covered under the current ITSD appropriation.

Training for 50 staff (includes contractor staff and ITSD staff) for 3 weeks each at \$1,500 per week. ITSD indicates staff and contractors will need additional training in the platform used to develop the UI system. ITSD intends to bring training on-site to eliminate staff travel costs.

Computer equipment for 34 contract staff and 8 vacant ITSD staff at \$706 per staff. It is assumed the remaining 8 ITSD FTE are existing ITSD staff with computers. In addition, ITSD estimates that \$2,000,000 will be needed in computer equipment/software and \$1,100,00 for software licensing/maintenance in addition to the PCs for this project.

Office equipment for 34 contract staff. ITSD has adequate office space/equipment (desk, chairs, etc.) for existing ITSD staff and for vacant ITSD FTE.

The Department of Labor and Industrial Relations (DOLIR) currently has \$8,170,323 in Federal IT ONLY CARRYFORWARD funds. In addition, DOLIR has \$9,522,006 in ARRA funding which can be used for this project. The federal funding must be obligated by 9/30/13 so that it will not lapse. Some of these federal funds will be expended in existing OA ITSD appropriations in FY 2013 and FY 2014. Project costs are expected to continue through FY 17.

2. CORE DESCRIPTION

The funds in this appropriation enable the Division of Employment Security (DES) to make necessary building repairs and other expense & equipment purchases related to the maintenance of the three division owned buildings (Jefferson City, Kansas City & Springfield). The funds in this appropriation also provide supplemental support to the DES for costs not covered by the federal grant. In addition, appropriation authority is provided in this core request allowing the DES to collect the necessary funds to pay interest due to the federal government that has accrued on outstanding Title XII advances as well as allowing the division to collect the necessary funds to make payments on credit instruments issued by the Board of Unemployment Fund Financing (BUFF), if any.

Due to current economic conditions, the DES expects to borrow funds from the federal government to make unemployment insurance (UI) benefit payments. This federal money does not go through the state treasury; however, the interest on this money must be paid by state funds from assessments levied on employers. An interest payment may be made to the federal government, if required. The DES requests establishment of a \$1 estimated appropriation for this purpose.

Missouri's 2012 federal interest payment was \$ 22,252,767.38.

2. CORE DESCRIPTION

This appropriation provides for the Division of Employment Security (DES) to use intercepted state income tax refund checks for the purpose of repaying unemployment insurance (UI) benefit overpayments and delinquent employer contributions. This aids the DES in collecting monies due to the Unemployment Compensation Trust Fund. Without this collection method, funds for the payment of UI benefits would decrease. The administrative costs associated with this core request are included in the division's administrative core request.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

Program Name: Prevention/Elimination of Illegal Discrimination

Program is found in the following core budget(s): Mo Commission on Human Rights Administration

1. What does this program do?

This program provides equitable and timely resolutions of discrimination claims through enforcement of the Missouri Human Rights Act. Allegations of discrimination are reviewed and investigated and a determination is made whether there is probable cause to believe discrimination has occurred. The Missouri Human Rights Act seeks to eliminate discrimination in the workplace, public accommodations and housing. Discrimination can be based on race, color, religion, national origin, ancestry, sex, physical/mental disability, age and familial status. The program also offers training to public and private employers, organized groups, school districts and housing providers on topics such as sexual harassment prevention, cultural sensitivity, disability sensitivity, and fair housing information.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

This program is mandated under the Missouri Human Rights Act, Chapter 213; Title VII and Title VIII of the U.S. Civil Rights Law.

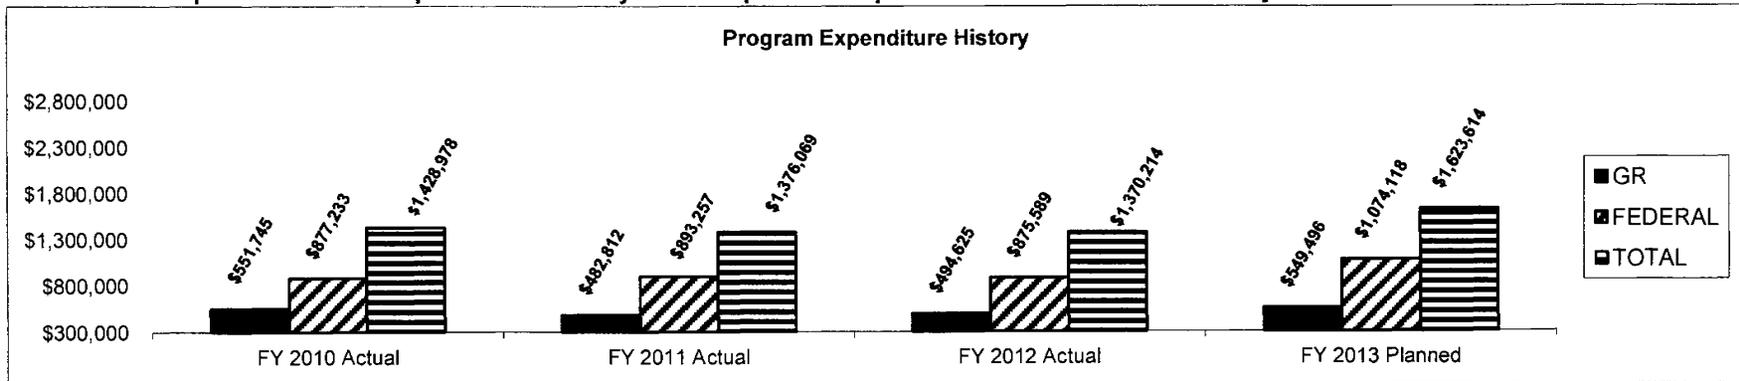

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No, however the MO Commission on Human Rights has worksharing contracts with the Equal Employment Opportunity Commission (EEOC) and Department of Housing and Urban Development (HUD).
