<b>7. DESCRIPTION OF WORK</b> MVC Critical M&R Funds to be used at the Missouri Veteran's Commission Home, Cemeteries, and Veteran's Service Offices for critical maintenance and repair.	<b>8. JUSTIFICATION</b> Throughout the year there are miscellaneous repairs that are required in each of the facilities that must be repaired immediately to keep our Veterans Homes, Cemeteries and Veterans service offices operational and well maintained for our Veterans. These funds, which are from the Veterans' Commission Capital Improvement Trust Fund, will be used for construction, maintenance, repairs, and replacements at the Veteran Service Offices and the Missouri Veterans Commission Homes and Cemeteries statewide.

7. DESCRIPTION OF WORK STATEWIDE RENOVATION This Authorization of funds would allow the Division of State Parks to address various types of planned and unforeseen maintenance, renovation and replacement projects necessary to maintain existing facilities and provide public services throughout the park system. Work would include building renovations, large roofing and painting projects and other major repairs to, or replacement of, existing facilities.								8. JUSTIFICATION The Division of State Parks is responsible for the maintenance and upkeep of over 1,800 buildings and other miscellaneous facilities. Funds from this request would ensure that major repairs, renovations and replacements of facilities can be completed to maintain an acceptable level of service to the public and to preserve the assets of the state park system.

<b>7. DESCRIPTION OF WORK</b> WATER/WASTEWATER REPAIRS This authorization of funds would allow the Division of State Parks to complete various water and wastewater improvements necessary to provide public services and to comply with federal and state regulations.	<b>8. JUSTIFICATION</b> The Missouri State Park System has numerous aging water and wastewater systems that must be replaced or improved to comply with changing regulations and provide adequate public services. Aging infrastructure issues continue to plague Missouri's state parks and historic sites. The needed water and wastewater improvements alone exceed \$30 million.

<b>7. DESCRIPTION OF WORK</b> CATASTROPHIC/CONTINGENCY This authorization of funds would allow the Division of State Parks to respond to unanticipated repairs in a manner that would provide uninterrupted services to the public. This funding would also make it possible to immediately address severe damages or loss of basic services due to major disasters such as floods, severe storms, major fires, etc.	<b>8. JUSTIFICATION</b> The Division of State Parks manages over 1,800 buildings and other miscellaneous facilities, including a large number of public water and wastewater systems, which are used by millions of visitors every year. This funding would ensure that parks and historic sites could reopen and operate after catastrophic events, without waiting until the next CI budget cycle.

<b>7. DESCRIPTION OF WORK</b> ROADWAY/TRAIL REPAIRS This authorization of funds would allow the Division of State Parks to continue to maintain and repair its existing roadways, parking areas and trails. Work would involve the addition of rock/gravel; replacement of culverts or other items necessary to correct drainage problems; repairs to bridges; installation or replacement of wheel stops; crack filling, sealing and striping of existing paved areas; and overlaying existing roadways with new asphalt.	<b>8. JUSTIFICATION</b> The Division of State Parks is responsible for the maintenance of approximately 260 miles of public roads, including both paved and graveled surfaces. We also have several hundred miles of hiking and biking trails, including the Katy Trail. These areas require regular maintenance to provide safe public access throughout our state parks and historic sites.

<b>7. DESCRIPTION OF WORK</b> SPENDING AUTHORITY The Division of State Parks requests legislative authority to expend funds received as the result of donations, insurance settlements, court awards or grants, for the completion of maintenance and repair projects.	<b>8. JUSTIFICATION</b> On occasion the Division of State Parks receives funds from donors, insurance settlements, court awards or grants directed toward a specific purpose. Section 253.040 of the Missouri Revised Statutes authorizes the department to "...accept gifts, bequests or contributions of money or other real or personal property to be expended for any of the purposes of Sections 253.010 to 253.100; except that any contributions of money to the Department of Natural Resources shall be deposited with the State Treasurer to the credit of the state parks earnings fund and expended upon authorization..." This requests seeks that authorization from the General Assembly, which will enable the department to proceed in meeting the intent of the funds received by these means.

<b>7. DESCRIPTION OF WORK</b> HISTORIC PRESERVATION Allow use of the Historic Preservation Revolving Fund (HPRF) to acquire (through purchase or lesser interest), restore and market endangered historic properties. There are a number of real estate transactions covered under this fund and the appropriation will allow for the funding of those transactions that are considered capital improvements (i.e. purchase of land and buildings, easements, renovations, maintenance and repair, etc.). Funding for the operating expenses and real estate transactions related to the operating budget (i.e. loans etc.) are appropriated in the department's operating budget.	<b>8. JUSTIFICATION</b> To prevent problems with some of the real estate transactions involved with the operation of the Historic Preservation Revolving Fund, it is necessary to have appropriation authority in both the operating and capital improvement budgets to allow the appropriate transactions (i.e. loans and/or grants from the operations budget and land and building acquisitions from the capital improvement budget) to occur on a project by project basis. This is due to the fact that the type of authority needed each fiscal year cannot be determined until properties are located and actual contract negotiations occur.

<b>7. DESCRIPTION OF WORK</b> Exterior Renovations Replacement of damaged concrete in parking lots, curbing and sidewalks. Install retaining walls and ground cover for erosion control.	<b>8. JUSTIFICATION</b> Since the facility opened in 2000 considerable deterioration has occurred to the parking lots, curbs and sidewalks. This project will correct the situation and reduce the potential for fall hazards. This project will also include a short retaining wall that will help correct another fall hazard identified during an internal inspection of the facility. The sidewalks leading away from the building near the front drive have steep slopes that could potentially overturn a wheel chair, scooter or walker. The final phase of this project will add ground cover to an area of the facility grounds that is dangerous to mow.

<b>7. DESCRIPTION OF WORK</b> Concrete Repairs Extend fire lane around the veterans home. Repair and replace damaged sidewalks, parking lots, streets and curbs. Approximately 20 parking spaces, including a retaining wall and lighting.	<b>8. JUSTIFICATION</b> Since the facility opened in 1985 considerable deterioration has occurred to the parking lot. This project will include a retaining wall and increase the lighting in the parking area. The other phase of this project will complete the fire lane around the veterans home.

<b>7. DESCRIPTION OF WORK</b> Facility Renovations Renovate kitchen and upgrade kitchen equipment. Replace fan coil units and upgrade HVAC system. Replace flooring throughout facility, repair and paint walls, refurbish residents rooms and restrooms. Upgrade nurses stations and construct solarium and equipment rooms. Replace the fire alarm and nurse call systems.	<b>8. JUSTIFICATION</b> There have been no major renovations to the kitchen area since the facility opened in 1995. Since that time, the number of residents with higher acuity levels have steadily increased causing an influx in wheel chairs and that has caused congestion in the dining / kitchen area. Additionally residents have limited abilities to go outdoors. By adding a solarium to the facility we will enhance the therapeutic environment for them. The flooring, wall, ceilings and fixtures are requiring more maintenance and have exceeded their intended life span. Also included in this project is the replacement of two essential systems, the fire alarm and nurse call systems. Retile existing tub rooms and 6 medical equipment storage rooms. We have completed renovations to portions of the HVAC systems in previous projects and we are now proposing to complete the entire renovation by replacing the remaining equipment. By conducting all of these repairs in one project we will reduce the administrative cost, design fees and construction fees.  MVC will be requesting a construction grant from the Department of Veterans Affairs for up to 65% reimbursement of the total cost of this project (\$4,205,156.67).

<b>7. DESCRIPTION OF WORK</b> Nurse Call & Fire Alarm Replace the existing Nurse Call & Fire Alarm Systems throughout the facility.	<b>8. JUSTIFICATION</b> Equipment has been in use for several years and repair parts are becoming increasingly harder to find. The maintenance costs are continually rising and repairs are increasingly more frequent.  MVC will be requesting a construction grant from the Department of Veterans Affairs for up to 65% reimbursement of the total cost of this project (\$986,847.29).

<b>7. DESCRIPTION OF WORK</b> Federal Funding This would authorize the acceptance of federal funds within the MONG Master Cooperative Agreement using state contracting procedures. Projects include exterior/interior repairs, renovations, environmental and unprogrammed repairs. \$20 Million Estimated.	<b>8. JUSTIFICATION</b> The Adjutant General Office receives federal funds to support maintenance and repair and minor construction at National Guard facilities. The funds are used for readiness centers, maintenance shops, aviation facilities, warehouses and training sites. These types of facilities receive a varied percentage of federal funding ranging from 50% at readiness centers to 100% for other facilities. This request represents an estimated amount based in part on the level of state appropriations provided for readiness centers that can be used as state 50% match.
