DEPARTMENT INFORMATION

Overview

Missouri Department of Revenue

The Missouri Department of Revenue (Department) is the central collection agency for all state and non-state revenues. In addition to collecting taxes and fees, the Department titles and registers vehicles, and licenses drivers. The Department strives to ensure that all taxes and fees owed to the state and local political subdivisions are paid; that its duties and services are performed according to statutory and regulatory standards, in a professional manner, and in a technologically forward-thinking fashion; and that it minimizes administrative expense.

In Fiscal Year 2012, the Department collected \$8.5 billion or 98.6 percent of state General Revenue and \$2.7 billion in other state funds. In addition, the Department collected and distributed over 1,000 local-option tax rates for Missouri cities, counties, and other political subdivisions.

State Tax Commission

The State Tax Commission is a quasi-judicial administrative agency created by the Missouri Constitution to perform six (6) basic functions. These functions are:

1. Equalize inter- and intra-county assessments
2. Conduct *de novo* judicial hearings regarding valuation and classification appeals from local boards of equalization in individual assessment cases
3. Formulate and implement statewide assessment policy and procedures to comport with statutory and constitutional mandates
4. Supervise local assessing officials and local assessment programs to ensure compliance with statewide policy requirements
5. Conduct ratio studies to determine the assessment level in each county and to measure the quality of the assessment program
6. Original assessment of the distributable property of railroads, airlines, pipelines, telecommunications, and public utilities

The State Tax Commission oversees an assessment system, which is responsible for the annual collection of \$6.4 billion in property tax revenues, which serves as the financial foundation for public schools and local governmental agencies.

The State Tax Commission envisions an ad valorem assessment landscape which ensures the equitable treatment of all property owners in the State of Missouri. This vision will be manifested through the State Tax Commission's emphasis on the guiding values of work ethic, discipline, integrity, efficiency, and impartiality in its performance of its duties and the fulfillment of its responsibilities to the citizens of Missouri.

Missouri State Lottery

The Missouri Lottery is a revenue source for Missouri public education.

The Lottery's mission is generate funds to provide educational opportunities for Missouri students, support Missouri businesses, and entertain millions.

The core functions of the Lottery are to:

- Recruit and license Lottery retailers
- Create, market, and distribute Lottery products
- Collect revenues from Lottery retailers
- Pay Lottery prizes and retailer commissions
- Ensure the security and integrity of Lottery operations and games, and
- Transfer profits monthly to the Lottery Proceeds Fund

In Fiscal Year 2012, Lottery sales exceeded \$1 billion and the amount of profit transferred to the Lottery Proceeds Fund for education exceeded \$280 million.

Over the past 26 years, the Lottery has sold more than \$15 billion in product and transferred profits in excess of \$4.3 billion to the state and public education.

The Missouri Lottery is diligent in being responsible stewards of the Lottery's money. During our 26-year history, the Lottery's operating percentage (administrative costs plus ticket costs as a percentage of sales) has decreased from 14 percent to 4 percent last fiscal year – one of the lowest in the country. The Lottery continues to build on its past history of developing and implementing cost-saving initiatives that will ensure the Lottery continues to improve the level of productivity and efficiency into the future.

DEPARTMENT DECISION ITEMS

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 86000C	DEPARTMENT: REVENUE
BUDGET UNIT NAME: Department of Revenue	DIVISION: N/A

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The Department of Revenue requests 10 percent flexibility for General Revenue (GR) and State Highways and Transportation Department (Highway) funds between personal service and expense and equipment and between divisions in Fiscal Year 2014. The ability to respond to changing situations is sometimes difficult to manage with fixed budgets that have experienced cuts rather than growth. With core reductions and the impact of Amendment 3, the Department will use flexibility to continue providing the best possible revenue collection results and continue to perform its statutory and regulatory mandates.

The Governor recommended 10 percent flexibility for GR and Highway funds between personal service and expense and equipment and between divisions in Fiscal Year 2014.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
The Department used \$849,194 flexibility to pay plate and tab invoices and postage.	The Department does not have flexibility in Fiscal Year 2013.	The Department is requesting 10 flexibility between personal services and expense and equipment and between divisions to continue the focus on revenue generating programs.

3. Please explain how flexibility was used in the prior and/or current years.

commercial driver license medical certification requirements; and prohibits the removal of out-of-state offenses of commercial drivers from the driving record.

SB 480 – This legislation changes the requirements for ignition interlock devices related to driver license suspensions, restricted driving privileges, limited driving privileges, and reinstatements.

The Legal Services Division requests core funding to implement legislation for:

HB 1504 - Under prior law, only taxpayers, i.e. sellers, could request a refund for overpaid taxes. This legislation permits purchasers to directly apply to the Department for a refund and to appeal a denial to the Administrative Hearing Commission and the Missouri Supreme Court. Purchasers may also appeal certain refund denials previously submitted by vendors, in some cases going as far back as January 1, 2007. They may also be allowed to relitigate other matters that the vendors have previously lost. This change will significantly impact the number of refund claims made to the Department.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Department's original FY2014 budget request was based upon the TAFP fiscal note. After further review, the Department was able to reduce its request from the TAFP fiscal note projections.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Missouri Department of Revenue uses an enterprise document management system, Oracle IPM, throughout the agency for mission-critical business processes. This system provides primary access to source documents to assist Missouri citizens doing business with the state. It is also the Department's repository of record in many cases.

All business tax forms—corporate income and franchise, sales and use, withholding, and tire and battery fee—are scanned into the system, and the Department plans in the near future to begin scanning individual income tax returns.

Department of Revenue	Budget Unit <u>86110C & 86115C</u>

The system is also critical to the processing of driver license and motor vehicle transactions, and storing documents related to dealer licensing, notice of sale, motor vehicle registrations (TRIPS), convictions, administrative alcohol violations, issuance verification, reinstatements, etc.

The system is heavily used, every day. For example, in August 2012, 1,050 Department users logged in. In 2012 to-date, the Department scanned 21,446,620 pages in performing its duties (Driver Licensing – 3,942,894; Motor Vehicle – 9,667,914; Tax – 7,835,812). Over 263 million pages are presently stored in this system.

Vendor support for the current version of the document management system is limited due to product end-of-life. Support for the current version will end on December 2013.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Department of Revenue requests \$400,000 to upgrade the system including \$100,000 core for on-going maintenance. The upgrade would put the system in a supported mode and mitigate the potential for agency data loss and interruption of business processes.

2. CORE DESCRIPTION

Constitutional Amendment 3, passed by a majority vote on the 2004 General Election ballot, limits the amount of highway funding the Department of Revenue may spend to the cost of collection up to but not exceeding 3 percent of the collection of a particular tax or fee collected per Article IV, Sections 29, 30(a), 30(b), and 30(c) of the Constitution of the State of Missouri.

The Highway Collections core is comprised of the highway funding the Department is appropriated pursuant to Constitutional Amendment 3 and the amount of the General Revenue needed to fund the motor fuel tax, motor vehicle sales and use tax, and the motor vehicle and driver license fee responsibilities of the Department as set out in statute. Failure to fulfill these statutory obligations would have a negative impact on the collection of highway funding and diminish the safety of Missouri's highway system because motor vehicle and driver license suspension and revocation actions could be jeopardized.

3. PROGRAM LISTING (list programs included in this core funding)

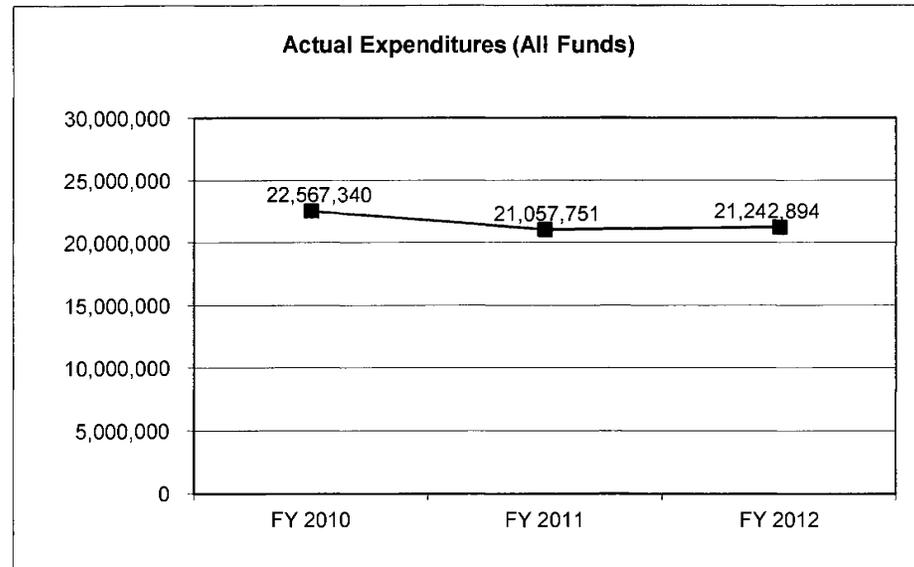

Fuel Tax Program	Motor Vehicle Registration Program
Driver License Program	Motor Vehicle Title Program

By law, Missouri Vocational Enterprises (MVE), which is under the Missouri Department of Corrections, is the vendor that produces embossed vehicle license plates for the Department of Revenue.

Section 301.290.1 RSMo, provides, "Missouri Vocational Enterprises of the Department of Corrections shall purchase, erect and maintain all of the machinery and equipment necessary for the manufacture of the license plates and tabs issued by the director of revenue and signs used by the state transportation department"

Section 301.290.3 RSMo, provides, "Missouri Vocational Enterprises shall furnish the plates and signs at such a price as will not exceed the price at which such plates and signs may be obtained upon the open market, but in no event shall such price be less than the cost of manufacture, including labor and materials".

MVE's production costs increased, and have been passed along to the Department of Revenue since January 2010. Specifically, the embossed license plate price increased \$0.04 per plate (from \$1.39 to \$1.43) from January 2010 through June 2011. Beginning in July 1, 2011, the embossed license plate price increased by \$0.20 per plate (from \$1.43 to \$1.63).

The Department submitted a decision item request in FY 2010 for the \$0.04 increase which was not approved by the appropriations committees. The Department also submitted decision item requests in FY 2011, FY 2012 and FY 2013 for the \$0.20 increase which were not approved by the appropriations committees.

Additionally, the Department's budget supply category for FY 2013 was reduced by 5%, which resulted in a decrease of \$150,000 for plates and tabs.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

MVE produces an estimated 2,000,000 embossed license plates annually for the Department. Based upon the per plate price increase, the annual cost increase to the Department is calculated as:

	<u>Volume</u>		<u>Per Plate Increase</u>			<u>Total Annual Increase</u>
Embossed License Plates	2,000,000	X	\$0.24	=		\$480,000
FY 2013 Supply Budget Category Reduction (\$3,000,000 X 5%) (which includes license plate and tabs)						\$150,000

Section 301 130.6(1) RSMo, allows the Director of Revenue to prescribe additional information to be recorded on license plate tabs to ensure that tabs positively correlate with the license plate configuration. In 2010, the Department awarded a three-year contract to 3M and implemented enhanced security tabs on demand in four St. Louis license offices and the central license office. Later that year, the program was implemented in five Kansas City offices and four in Springfield.

The enhanced security tabs program decreases tab theft. The tabs are printed with the license plate configuration of the vehicle on the tab, making a stolen tab useless for purposes of placement on a different vehicle. The material used to print the tabs is also difficult to peel off in one piece. The enhanced tabs are very popular with the public and law enforcement. The request for funding is for the cost of the enhanced security tabs issued in the St. Louis, Kansas City, Springfield and Central Office areas.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Based upon the volume of tabs purchased for FY 2012 for the St. Louis, Kansas City, Springfield and Central Office areas the projected additional Department costs for FY 2013 in \$204,750.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

In 1992, in response to motor vehicle theft, Congress passed the Anti-Car Theft Act. The Act was designed to reduce auto theft by making the selling of stolen or damaged cars more difficult. Part of the Act required the establishment of the National Motor Vehicle Title Information System (NMVTIS), a U.S. Department of Justice information system operated by the American Association of Motor Vehicle Administrators (AAMVA). The deadline for states' full participation was January 1, 2010, which many states could not meet, although the Missouri Department of Revenue implemented the system on August 31, 2010. There is an annual user fee, calculated using the number of vehicles each state has in the system and prorating the cost among the user states.

NEW DECISION ITEM

RANK: 10 OF 20

Department of Revenue	Budget Unit	86110C
Motor Vehicle and Driver License Division		
DI Name - NMVTIS User Fees	DI#	1860006

AAMVA waived the annual fee for Missouri for FY2011 and FY2012 because the Department of Justice funded user fees for all jurisdictions these two years. The AAMVA board of directors advised all jurisdictions in September of 2011 that they will be charged the user fees beginning October 1, 2012.

The Department submitted a decision item for this fee in FY 2011, which the Department withdrew during session after receiving the waiver notification. The next year, FY 2012, the Department received notification of the waiver early enough that it did not seek a decision item for the fee. For FY 2013, the Department submitted a decision item for the fee, which was not approved by the Senate Appropriation Committee.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

All states are assessed pro-rated user fees based upon the number of vehicles each state has in the system regardless if the state is participating. There are currently 32 states fully participating in the program and 8 states providing data only. The Missouri Department of Revenue implemented NMVTIS on August 31, 2010. AAMVA waived the annual fee for Missouri for FY2011 and FY2012 because the Department of Justice funded user fees for all jurisdictions these two years. The AAMVA board of directors recently advised all jurisdictions that they will be charged the user fees beginning October 1, 2012.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

In February 2007, the Office of Administration issued a request for proposals for procurement of an integrated motor vehicle and driver licensing system. On October 1, 2007, from four bid responses and two qualified bids, the Department awarded the contract to BearingPoint, a systems integrator and technology firm. The first phase of the project included implementation of the initial infrastructure and the cash, customer, and dealer services modules (the Dealer System) which were installed and currently support the Dealer Licensing Section within the Department of Revenue's Motor Vehicle Bureau. Before the Dealer System was completely implemented, though, and before any other phases were begun, a successful court challenge arose over the increased document charges that were intended to pay for the contract and the vendor filed for bankruptcy, causing the project to be completely abandoned in March 2010.

NEW DECISION ITEM
RANK: 20 OF 20

Department of Revenue	Budget Unit <u>86120C</u>
Motor Vehicle and Driver Licensing Division	
DI Name - Motor Vehicle Dealer System Assessment	DI# <u>1860016</u>

As a consequence, the Dealer System was not completed and no other modules under the contract were implemented. Nor did the complete knowledge transfer of the system to resources within the Office of Administration Information Technology Services Division (OA-ITSD), so there is little or no state technical expertise to support and maintain the system.

Additionally, the legacy motor vehicle dealer system is still being maintained to support the interfaces required for other motor vehicle systems, such as the titling and registration system. The legacy dealer system was to be eliminated when the title and registration module was implemented.

While the Dealer System has remained functional, there have been numerous manual workarounds to facilitate changes required internally or because of legislation. It is imperative for the Department to have a system capable of ensuring the licensing of approximately 5,800 motor vehicle, marine, trailer, auction and salvage dealers, that is stable and flexible enough to be supported by OA-ITSD.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The funding request is to hire an IT consultant for 6 months to perform an analysis, and for travel expenses for external and internal staff to research other states' systems to evaluate and determine the best approach to develop a new Dealer System or complete the current one. The expected deliverables would include business requirements, resource requirements, and a project plan describing all viable options.

The Governor's Recommendation expands the system analysis to the motor vehicle and driver license systems.

2. CORE DESCRIPTION

The Taxation Division is responsible for collecting and processing taxes mandated by Missouri statutes. The division provides services to Missouri by collecting revenue to fund services, issuing refunds, and minimizing the administrative burden of tax compliance. It is also the responsibility of the division to encourage compliance by using focused enforcement actions, and identifying and addressing areas of unintentional noncompliance. The division communicates with its constituencies by informing them of tax laws, regulations, and available services. The division requests continued core funding to effectively and efficiently administer and enforce Missouri laws.

1. What does this program do?

The Sales Tax Program administers and collects Missouri's sales and use taxes. Section 144.020, RSMo, authorizes a general sales tax, a 3 percent tax on the purchase price of tangible personal property or service sold at retail, excluding exemptions. Section 144.610, RSMo, authorizes a general use tax, a 3 percent tax on the value of tangible personal property purchased outside the state for the privilege of storing, using, or consuming the property within the state. Two additional sales and use taxes have been approved by voters and are authorized by Article IV, Section 43 and Article IV, Section 47 of the Missouri Constitution: a one-eighth of 1 percent Conservation sales and use tax and a one-tenth of 1 percent Parks, Soils, and Water Conservation sales and use tax. Also, Section 144.701, RSMo, authorizes a 1 percent Education sales and use tax. Program staff provides a variety of administrative and customer service functions. On the administrative side, staff implements, collects, and distributes local sales taxes and refunds overpayments of sales/use taxes. Staff also processes registration applications, updates information for businesses that report sales/use taxes, handle lien filings, assists in the collections or makes collection case referrals to local prosecuting attorneys and collection agencies, tax clearances, and debt offsets. There are seven tax assistance centers that assist taxpayers in registering businesses, resolving delinquent accounts, and reinstating revoked licenses. Staff assist taxpayers who have received delinquent notices, assist with resolution and collection activities using the automated phone system, and provide technical support. Eight Missouri compliance offices and three out-of-state compliance offices conduct audits of taxpayers' sales and use returns. The Department educates its constituencies by participating at conferences, educational seminars, one-on-one meetings, and through its website.

2. CORE DESCRIPTION

The Department of Revenue collects approximately \$8 billion in general revenue and \$1 billion in highway related revenue annually using a mixture of largely 20-30 year old mainframe and pc software systems. Communication between systems is severely limited. Additionally, the systems are difficult to modify for legislative changes, efficiencies, and collection enhancements.

The Department awarded a 5-year contract for \$73,068,294 in February 2012 for implementation of an integrated system. The Department and contractor project additional revenues for the first 5 years of \$217 million. Under the contract, the Department will only pay for any accepted deliverable when the state has received sufficient benefits to pay for it. By contract, 50 percent of the first \$20 million generated in benefits is available for payment to the vendor for accepted deliverables; 75 percent is available for payment to the vendor thereafter up to the fixed price of the contract.

Department of Revenue	Budget Unit <u>86116C</u>

The Department anticipates accepted deliverables of \$17.6 million in FY14 plus the carryover of anticipated unpaid deliverables from FY13 of \$14.6 million for total payable deliverables of \$32.2 million in FY14. Benefit projections for FY14 are \$46.2 million (\$37.85 million GR) with \$34.65 million eligible for payment to the contractor (75 percent).

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Under the contract, the Department will only pay for an accepted deliverable when the state has received sufficient benefits to pay for it. Benefit projections for FY13 total \$23.245 million with anticipated accepted deliverables of \$17.6 million, plus FY12 accepted deliverables of \$7.9 million. Payments to the vendor in FY13 are limited to the \$12 million appropriated for FY13 so we anticipate unpaid accepted deliverables at the end of FY13 of \$14.6 million.

The Sales Tax Program administers and collects Missouri's sales and use taxes. Section 144.020, RSMo, authorizes a general sales tax, a 3 percent tax on the purchase price of tangible personal property or service sold at retail, excluding exemptions. Section 144.610, RSMo, authorizes a general use tax, a 3 percent tax on the value of tangible personal property purchased outside the state for the privilege of storing, using, or consuming the property within the state. Two additional sales and use taxes have been approved by voters and are authorized by Article IV, Section 43 and Article IV, Section 47 of the Missouri Constitution: a one-eighth of 1 percent Conservation sales and use tax and a one-tenth of 1 percent Parks, Soils, and Water Conservation sales and use tax. Also, Section 144.701, RSMo, authorizes a 1 percent Education sales and use tax. Program staff provides a variety of administrative and customer service functions. On the administrative side, staff implements, collects, and distributes local sales taxes and refunds overpayments of sales/use taxes. Staff also processes registration applications, updates information for businesses that report sales/use taxes, handle lien filings, assists in the collections or makes collection case referrals to local prosecuting attorneys and collection agencies, tax clearances, and debt offsets. There are seven tax assistance centers that assist taxpayers in registering businesses, resolving delinquent accounts, and reinstating revoked licenses. Staff assist taxpayers who have received delinquent notices, assist with resolution and collection activities using the automated phone system, and provide technical support. Eight Missouri compliance offices and three out-of-state compliance offices conduct audits of taxpayers' sales and use returns. The Department educates its constituencies by participating at conferences, educational seminars, one-on-one meetings, and through its website.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Department of Revenue's Criminal Tax Investigation Bureau (CTIB) currently manages a fleet of eight vehicles. These vehicles are used to carry out the mission of CTIB to conduct complex financial crime investigations concerning sales, withholding, and income taxes. Special Agents assigned to CTIB use the vehicles for required travel to participate in interviews of suspects and witnesses, perform surveillance, execute search warrants, meet with prosecutors and other law enforcement agencies, and perform general investigative duties. CTIB's investigative actions result in holding those who violate state tax laws accountable through the judicial system, as well as enhanced voluntary compliance.

NEW DECISION ITEM
RANK: 12 OF 10

Department of Revenue	Budget Unit <u>86130C</u>
Division of Legal Services	
DI Name: Criminal Tax Investigation Vehicles	DI# 1860008

At least three of CTIB's vehicles are in need of replacement and one additional vehicle is necessary. Last year CTIB spent in excess of \$4,700 in vehicle maintenance and repair on its aging fleet. The cost of maintenance and repair is expected to dramatically increase each year to keep the current vehicles in safe working order. The estimated cost for replacement is \$67,240 for four vehicles.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Three of CTIB's vehicles are in need of replacement. One vehicle already met the 120,000 mileage replacement criteria and two will meet the mileage requirement by the end of Fiscal Year 2013. The statewide contract for mid-size vehicles has not been awarded yet. However, the Department assumes that the cost will not significantly vary from the expired contract.

1. What does this program do?

The Child Support Enforcement Program, in conjunction with the Missouri Department of Social Services, oversees contract compliance and reconciles receipts and disbursements of both IV-D and Non-IV-D child support payments. Missouri contracts with a private company to receive and disburse child support payments and handle related telephone inquiries. The vendor receives payments from non-custodial parents through paper checks or electronic fund transfers (EFT) and disburses payments to custodial parents through direct deposit, electronic payment card (EPC), or paper check. The cost of the contractor's services is dependent on the type and quantity of receipts/disbursements made in a given month and the contracted pricing schedule. The cost of IV-D transactions is split between federal and state governments with the federal government responsible for 66 percent of the cost. Non-IV-D transaction costs may also receive such federal funding if certain requirements are met, but are otherwise paid entirely by the state.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 454.400, RSMo, and P.L. 93-647 and 45 CRF, Section 303.20

3. Are there federal matching requirements? If yes, please explain.

Costs to transact IV-D payments are paid 66 percent by federal funds and 34 percent by state funds. Sixty-six percent federal financial participation is available for Non-IV-D transaction costs when the case includes a support order initially issued in Missouri on or after January 1, 1994, and an income withholding is in place.

4. Is this a federally mandated program? If yes, please explain.

Federal requirements as specified in P.L. 93-647 and 45 CRF, Section 303.20

1. What does this program do?

The Sales Tax Program administers and collects Missouri's sales and use taxes. Section 144.020, RSMo, authorizes a general sales tax, a 3 percent tax on the purchase price of tangible personal property or service sold at retail, excluding exemptions. Section 144.610, RSMo, authorizes a general use tax, a 3 percent tax on the value of tangible personal property purchased outside the state for the privilege of storing, using, or consuming the property within the state. Two additional sales and use taxes have been approved by voters and are authorized by Article IV, Section 43 and Article IV, Section 47 of the Missouri Constitution: a one-eighth of 1 percent Conservation sales and use tax and a one-tenth of 1 percent Parks, Soils, and Water Conservation sales and use tax. Also, Section 144.701, RSMo, authorizes a 1 percent Education sales and use tax. Program staff provides a variety of administrative and customer service functions. On the administrative side, staff implements, collects, and distributes local sales taxes and refunds overpayments of sales/use taxes. Staff also processes registration applications, updates information for businesses that report sales/use taxes, handle lien filings, assists in the collections or makes collection case referrals to local prosecuting attorneys and collection agencies, tax clearances, and debt offsets. There are seven tax assistance centers that assist taxpayers in registering businesses, resolving delinquent accounts, and reinstating revoked licenses. Staff assist taxpayers who have received delinquent notices, assist with resolution and collection activities using the automated phone system, and provide technical support. Eight Missouri compliance offices and three out-of-state compliance offices conduct audits of taxpayers' sales and use returns. The Department educates its constituencies by participating at conferences, educational seminars, one-on-one meetings, and through its website.

2. CORE DESCRIPTION

The Department of Revenue, through its Mail Service Center and contracted vendors, annually processes more than 12 million pieces of outgoing mail including tax forms, driver license renewal notices, motor vehicle and marinecraft registration renewal notices, motor vehicle and marinecraft titles, collection and enforcement notices, and statutory required pieces of certified mail. These mailings support the operational programs in their role of revenue collections by notifying citizens of taxes due and owed, and of renewal dates of licenses and vehicle registrations to aid in timely renewals. Failure to provide these mailings would negatively impact revenue collections; result in decreased enforcement of tax, driver, motor and marinecraft, and other laws; and violate statutory mandates to deliver certain notices by regular or certified mail. Additional postage costs are included in the Highway Collections budget core request.

1. What does this program do?

The Sales Tax Program administers and collects Missouri's sales and use taxes. Section 144.020, RSMo, authorizes a general sales tax, a 3 percent tax on the purchase price of tangible personal property or service sold at retail, excluding exemptions. Section 144.610, RSMo, authorizes a general use tax, a 3 percent tax on the value of tangible personal property purchased outside the state for the privilege of storing, using, or consuming the property within the state. Two additional sales and use taxes have been approved by voters and are authorized by Article IV, Section 43 and Article IV, Section 47 of the Missouri Constitution: a one-eighth of 1 percent Conservation sales and use tax and a one-tenth of 1 percent Parks, Soils, and Water Conservation sales and use tax. Also, Section 144.701, RSMo, authorizes a 1 percent Education sales and use tax. Program staff provides a variety of administrative and customer service functions. On the administrative side, staff implements, collects, and distributes local sales taxes and refunds overpayments of sales/use taxes. Staff also processes registration applications, updates information for businesses that report sales/use taxes, handle lien filings, assists in the collections or makes collection case referrals to local prosecuting attorneys and collection agencies, tax clearances, and debt offsets. There are seven tax assistance centers that assist taxpayers in registering businesses, resolving delinquent accounts, and reinstating revoked licenses. Staff assist taxpayers who have received delinquent notices, assist with resolution and collection activities using the automated phone system, and provide technical support. Eight Missouri compliance offices and three out-of-state compliance offices conduct audits of taxpayers' sales and use returns. The Department educates its constituencies by participating at conferences, educational seminars, one-on-one meetings, and through its website.

The Department of Revenue mailed over 12.5 million pieces of mail in Fiscal Year 2012. The Department diligently programs its mail to take advantage of all postage discounts and looks for strategies to reduce the number of mailings. Because of both increased postage costs and budget reductions, the Department will experience a shortfall in its postage budget.

The Department revised its original budget request for the United States Postal Service rate increase effective January 2013. The rate hike increased the Department's cost for letter mail by 2.2 percent, postcards by 3 percent, and certified mail by 5 percent.

The Department of Revenue participates in a program with the U.S. Department of the Treasury, in which an IRS refund may be used to pay state income tax obligations. Participation in this program has become a significant debt collection tool for the Department and many states. The Department collected over \$14.7 million in individual income tax offsets through the program during Fiscal Year 2012. The Department estimates that it can collect an additional \$1 million annually, beginning in Fiscal Year 2014, by expanding its participation in the program to include employer withholding and corporate income tax debts for IRS refund offsets.

As a condition of offset participation for withholding and corporate income tax debts, federal law requires that the Department provide delinquent taxpayer with notice by certified, not simply regular, mail. The funding request will cover the cost of the certified mailing.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Department submitted a supplemental request for the initial mailings. The on-going annual cost to send 12,700 due process notices by certified mail is \$42,500. The Department revised its original request due to the United States Postal Service rate increase effective January 2013.

2. CORE DESCRIPTION

The Department of Revenue exercises the statutory authority in Section 136.150 and Section 140.850, RSMo, to use outside resources to supplement its collection of delinquent taxes. The Department refers delinquent accounts to local prosecuting attorneys and contracts with private collection agencies for the collection of delinquent taxes. This appropriation is used to pay the prosecuting attorney fees and collection agency contracts.

Prosecuting attorneys receive a payment of 20 percent of the delinquency collected. During Fiscal Year 2012 the Department referred \$263.8 million of delinquent accounts to the prosecuting attorneys. The prosecuting attorneys collected \$10.5 million in tax and fee delinquencies for the Department in Fiscal Year 2012.

The Department awarded contracts through the competitive bid process to two collection agencies at rates between 5.5% and 6.5%. During Fiscal Year 2012 the Department referred \$148.9 million of delinquent accounts to collection agencies. The collection agencies collected \$3.9 million in individual income tax and \$5.6 million in businesses tax delinquencies for the Department in Fiscal Year 2012.

2. CORE DESCRIPTION

The Department of Revenue refunds any overpayment or erroneous payment of workers' compensation taxes paid by insurance companies per Section 287 170, RSMo. Overpayments occur because insurance companies file estimated quarterly payments during the year based on prior year's activity. In June of each year, when insurance companies file annual returns, estimates and actual liabilities are reconciled and refunds, if necessary, are issued. The Department uses this appropriation to process those refund claims.

2. CORE DESCRIPTION

The Department of Revenue issues refunds for the overpayment or erroneous payment of taxes collected on tobacco products. The Department collects a tax of eight and one-half mills per cigarette on the sale of cigarettes. Receipts from the tax are deposited into the State School Money Fund, the Fair Share Fund, and the Health Initiatives Fund. A tax of 10 percent of the manufacturer's invoice price, before discounts and deals, is also levied on the first sale of tobacco products, other than cigarettes. The receipts from this tax are deposited into the Health Initiatives Fund. The Department uses this appropriation to issue refunds to taxpayers for overpayments of tax on cigarette and other tobacco products as maintained in Chapter 149, RSMo.

2. CORE DESCRIPTION

Section 135.815, RSMo, states, "Prior to authorization of any tax credit application, an administering agency shall verify through the department of revenue that the tax credit applicant does not owe any delinquent income, sales, or use taxes, or interest or penalties on such taxes, and through the department of insurance that the applicant does not owe any delinquent insurance taxes. Such delinquency shall not affect the authorization of the application for such tax credits, except that the amount of credits issued shall be reduced by the applicant's tax delinquency. If the department of revenue or the department of insurance concludes that a taxpayer is delinquent after June fifteenth but before July first of any year, and the application of tax credits to such delinquency causes a tax deficiency on behalf of the taxpayer to arise, then the taxpayer shall be granted thirty days to satisfy the deficiency in which interest, penalties, and additions to tax shall be tolled. After applying all available credits towards a tax delinquency, the administering agency shall notify the appropriate department, and that department shall update the amount of outstanding delinquent tax owed by the applicant. If any credits remain after satisfying all insurance, income, sales, and use tax delinquencies, the remaining credits shall be issued to the applicant, subject to the restrictions of other provisions of law."

2. CORE DESCRIPTION

The Department of Revenue places intercepted Missouri income tax refunds in escrow on behalf of state agencies, colleges, universities, and the federal government seeking satisfaction of any debt larger than \$25. Sections 143.782 through 143.788, RSMo, allow the Department to offset a tax refund for any debt in excess of \$25, if requested by any state or federal agency. This appropriation allows the Department to apply intercepted refunds towards delinquent motor vehicle sales and use taxes and fees and driver license fees.

The Department is also developing reciprocal agreements with other states to intercept refunds for the satisfaction of debts. The Department executed an agreement with the state of Kansas in Fiscal Year 2010. This appropriation allows the Department to forward intercepted amounts to the applicable states.

This funding will provide for the continuation of the Commission's role in ensuring uniform and equitable assessments of taxable tangible property pursuant to Article X, Section 3 and 14 of the Missouri Constitution. The funding provides for 3 FTE, two of which will be assigned certain counties to perform procedural evaluations and provide technical assistance to the local assessment officials. The other FTE will be responsible for conducting educational sessions throughout the entire state regarding GIS mapping fundamentals, complex appraisal methodology, and Missouri assessment statutory and case law. There will be approximately 25 new assessors who will assume the office of assessor effective September 1, 2013. Many of these new assessors, have little or no mass appraisal training or knowledge of mandatory statutory assessment procedures. Additional staffing will enable the Commission to assemble a task force of assessment representatives, which upon request from a county, can mobilize and assist a county for specific needs and requirements.

If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Since the inception of mandated statewide reassessment in 1979, the State Tax Commission has performed the task of providing technical guidance and assistance to county assessment officials. The derivation of funding required is based on extensive experience the Commission possesses in providing this program to assessors for the past 30 years. The request for the 3 FTE would provide the same staff level this section had in FY-2007. FY-2007 provided the optimal staffing level to adequately satisfy the needs of the local assessment community.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an effectiveness measure.

The effectiveness of this program is quantified by determining the number of counties that comply with their biennial assessment maintenance plan and also comply with established national standards depicting that the level and quality of assessments meet those standards. The Commission constantly conducts statistical analysis providing essential data reflecting the level and quality of each county's assessment program.

6b. Provide an efficiency measure.

The addition of these FTE will result in establishing territories that are much more reasonable to service. It will decrease the cost associated with county visits and will increase the amount of time the Assessment Representative can spend with a county assessing and assisting in the needs of that particular county

6c. Provide the number of clients/individuals served, if applicable.

The entirety of the Technical Assistance Staff has all 114 Counties and the City of St. Louis as clients and indirectly, every citizen who owns tangible taxable property

6d. Provide a customer satisfaction measure, if available.

2. CORE DESCRIPTION

Section 137.750, RSMo states that the State of Missouri may provide local assessment jurisdictions with up to 60 percent of all costs associated with implementing a biennial reassessment plan. The current assessment maintenance appropriation reimburses at 50 percent of all costs associated with implementing a biennial reassessment plan. This core request in the amount of \$9,793,971 will provide reimbursements to counties at the statutory floor of \$3.00 per parcel based upon 2009 parcel count.

The actual cost per parcel required to implement the statewide assessment program stands at \$17.33. The core request provides funding to pay for 17% of the actual cost required to assess property in the State of Missouri with the balance of 83% being borne by local government.

This increase is requested to more accurately reflect anticipated spending and includes items directly related to ticket sales. As sales increase the cost of goods sold also increase. Costs reflect an annual sales increase from \$1.000 billion to \$1 102 billion, an increase of \$102 million.

If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The \$102 million increase in sales is assumed to be provided by a \$74 million increase in Scratchers sales and a \$28 million increase in Draw Game sales. Costs to continue associated with these increased sales are estimated as follows (rounded to the nearest \$100,000):

Draw Game processing services and telecommunications costs -
 \$28 million X 3.4976% contractual rate = \$1,000,000

Self-service machine leasing costs -
 \$28 million X .9075% contractual rate = \$300,000

Design and printing of Scratchers tickets -
 \$74 million X .907% effective FY 12 rate plus \$300,000 for additional licensed property costs, holographic paper and printing effects = \$1,000,000

Delivery of Scratchers tickets to retailers -
 \$74 million X .139% effective FY 12 rate plus \$150,000 additional blitz shipping costs, shipping supplies and temporary help = \$300,000

Additional cost-to-continue request in the event "E"s are removed and sales exceed projections -
 Core EE appropriation of \$41,858,992 X 1% = \$400,000

2. CORE DESCRIPTION

The Missouri Lottery requests continued core funding for prize payouts associated with the Lottery's Scratchers and Draw Games. Prize structures of games are established to maximize sales and profits for Missouri public education. The Lottery will continue to inform the public of the prize structure of each game.

As this is a sales-related appropriation request, an "E" appropriation for prizes is requested so that the Lottery can continue to pay prizes if sales exceed customary levels.

3. PROGRAM LISTING (list programs included in this core funding)

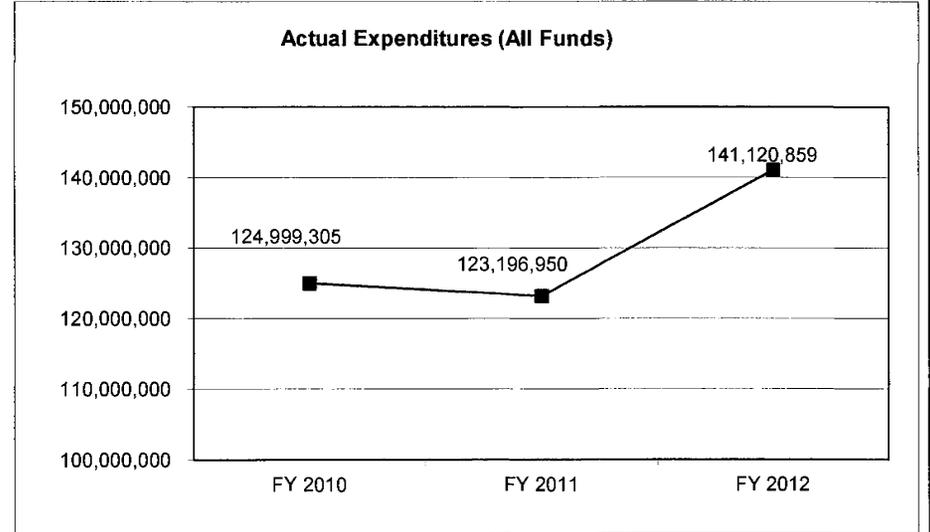

Prizes related to the games offered by the Missouri Lottery.
