

Product Component

DEFINITION			
<i>Name</i>	CorpsMet95		
<i>Description</i>	A metadata utility originally developed for the US Army Corps of Engineers (USACE), by Coastal Oceanographics, Inc, and now maintained by USACE.		
<i>Rationale</i>	Standalone utility does not require any additional GIS software to create metadata.		
<i>Benefits</i>	<ul style="list-style-type: none"> • The software is freeware, and easily downloaded. • It has an easy to use form interface for data entry. • Required fields are easily identified. • Software includes export to various file formats

RATIONALE FOR COMPONENT CLASSIFICATION

Document the Rationale for Component Classification

This is one of the better options for users who wish to create metadata, but do not have access to other GIS software, such as Environmental Systems Research Institute (ESRI) ArcGIS.
