

Compliance Component

DEFINITION

<i>Name</i>	Desktop Printer – Inkjet - Color
<i>Description</i>	Defines the specifications for color printing for individual users. Devices in this category are suitable for most applications, with limited expandability options.
<i>Rationale</i>	Enables State employees to print to a dedicated, color printer. Desktop color inkjet printers are best deployed in individual situations where high-speed printing is not needed, or where the desktop printer can be shared among a small group of users. Physical isolation or security/confidentiality concerns may also make this an appropriate choice for printing services in a given location. A standard configuration promotes economies of scale and ease of support. Expected life-cycle of this type of printer is normally a minimum of 2 years.
<i>Benefits</i>	<ul style="list-style-type: none"> • Enhances 24x7 support by providing quicker problem resolution. • Allows State services to be provided in a more cost-effective solution.
