

# PRODUCT COMPONENT

(revised 11/28/06)

## DEFINITION

<i>Name</i>	SmartFilter/SmartReporter Web Filtering Software
<i>Description</i>	SmartFilter/SmartReporter is a software tool that protects organizations and employees who use the Internet from a growing number of threats by filtering Web sites as set by agency guidelines. SmartFilter/SmartReporter includes reporting tools and a customizable database of pre-defined categories of filtered Web sites/content.
<i>Rationale</i>	<ul style="list-style-type: none"> <li>• Internet misuse at work costs Missouri state government in lost productivity.</li> <li>• Malicious Web sites can be blocked to prevent downloading of potential viruses, worms or other harmful applications before anti-virus software is executed.</li> <li>• High-bandwidth applications, including instant messaging, downloading music, and watching video clips during work hours exhaust State of Missouri financial/network resources.</li> </ul>
<i>Benefits</i>	SmartFilter/SmartReporter can: <ul style="list-style-type: none"> <li>• improve employee productivity;</li> <li>• enhance security;</li> <li>• reduce legal liability;</li> <li>• optimize the use of IT resources;</li> <li>• integrate with leading network infrastructure products;</li> <li>• provide flexibility and control for Web site filtering.</li> </ul>
