08/01/06 – 07/31/07	06/29/06	Initial issuance of new statewide contract. This contract replaces C200048001.

The contract is for provision of telecommunications and data wiring and related supplies (patch cables, etc.) The contract is a preferred use contract intended to serve any state agency within the Jefferson City, Missouri city limits, and within a 40-mile radius. Related product information and product-usage training is also available.

**Preferred-Use Contract:** State agency users are advised that the contract is considered a preferred-use contract which means all state agencies *should* use the contract for the supplies and service on contract if needed. Even though the contract is considered a preferred-use contract, there will be rare situations where an agency may waive itself from using the contract so long as such determination is supportable and in the best interests of the State. Reasons for not using the contract shall include but shall not necessarily be limited to the following: specific item is out-of-stock for an unreasonable amount of time (to be determined by the state agency) without an acceptable substitute; closest authorized dealer is too far and it would be burdensome for the agency to pay the cost associated with travel.

**On-Site Advice and Consultation:** As requested, Anixter will provide on-site advice and consultation to the state agency regarding the best product for the state agency's application at no additional cost to the State.

**Product-Usage Training:** The contractor also provides product usage training (e.g., how to use a crimper, etc.) to the state agency upon the agency's request. Anixter provides this service free of charge

**Replacement of Damaged Product:** The contractor shall be responsible for replacing any item received in damaged condition at no cost to the State of Missouri. This includes all shipping costs for returning non-functional items to the contractor for replacement.

**Substitutions:** The contractor shall not substitute any item(s) that has been awarded to the contractor without the prior written approval of the Division of Purchasing and Materials Management.

**Delivery Performance:** Drop-ship delivery is provided by Anixter. In-stock items will be delivered in one (1) business day from the date of order. Items will be warehoused at Anixter's location at 2266 Ball Drive in Maryland Heights, Missouri. Out-of-stock items should be rare. Delivery of these items will depend on manufacturer lead-time or availability.

The contractor and/or the contractor's subcontractor(s) shall deliver products in accordance with the contracted delivery times stated herein to the state agency upon receipt of an authorized order. Delivery shall include unloading shipments at the state agency's dock or other designated unloading site as requested by the state agency. All orders must be shipped F.O.B. Destination, Freight Prepaid and Allowed. All orders received on the last day of the contract, must be shipped at the contract price. All deliveries must be coordinated with the state agency.

The contractor shall submit a monthly statement with an original copy of the invoice (prefer original and one copy) showing the item(s), respective quantity of items shipped, invoiced price, and, as applicable, the manufacturer's list price for the item minus the contract discount, i.e., for items that are not specifically priced in the contract, the invoice shall show the quoted discount applied to the list price, and the resulting net (discounted) price to the state agency. The contractor shall be paid in arrears on a monthly basis.

**Agencies Have To Sign-For Items Received:** The contractor shall not release any merchandise to the state agency unless signed-for with a readable signature by the state agency representative picking-up or receiving the order.

**Purchase Order Numbers Are Required:** The contractor shall understand and agree that no orders shall be accepted or delivered without a purchase order number. The purchase order number must be shown on all shipping papers, invoices, etc.

**Packing Slip Required:** The contractor must provide a packing slip with each shipment. The packaging slip will include at least the following information which is listed in no particular order:

- a. Line Item Description
- b. Quantity Ordered
- c. Quantity Included in Shipment

- d. Any Back Order Items
- e. Unit Price
- f. Number of Parcels
- g. Purchase Order
- h. Agency Name and Department
- i. F.O.B. (Destination)
- j. All Information Contained on the Packing Label

Each order shall be accompanied by an invoice, including prices, to serve as the packing list.

**Returns:** Undamaged items may be returned by the state agency. Anixter must accept merchandise returned by the state agency. The state agency should contact Anixter to request a return. A credit will be issued minus freight charges for items returned that are returned for any reason besides damage.

**Replacement of Damaged Product:** Anixter shall be responsible for replacing any item received in damaged condition at no cost to the State of Missouri. This includes all shipping costs for returning non-functional and/or damaged items to the contractor for replacement.

**Warranty:** A two (2)-year warranty on parts and labor is provided.

**Order Tracking:** The state agency can track orders on-line at Anixter's eAnixter site. Go to **www.Anixter.com** for more details.

**Renewal Options:** There are four one-year options to renew the contract; Anixter is allowed to increase pricing 3%, 5%, 7% and 9% respective to each renewal option.

**SAM2 Use:** The price agreement in SAM2 is set-up with a specific line item for each line item shown in this statewide notice on the following Pricing Pages.

**Anixter Link:** **Anixter's State of Missouri direct link to the website.**

**Pricing Page Information:**

Prices quoted on the Pricing Page are firm and fixed for the duration of the identified contract period **with the exception of line items 001-007**. These items (001-007) are allowed to change every three-months because of copper pricing volatility.

**All prices quoted are F.O.B. Destination (i.e., ordering state agency location) freight prepaid and allowed.** The state agency shall not be responsible for paying any freight or handling charges that are not already built into the quoted line item pricing shown here.

NOTE: Pricing for line items 001-007 will change every three months. The pricing shown on the following Pricing Page is valid from August 1, 2006 through October 31, 2006. Updated pricing will be available in a future update to the Notification of Statewide Contract. State agencies are advised to always check the Internet "Statewide Contracts" listing for the most current information.
