Purpose and Use of Contracts:

C109019002 (Butler Supply – Electrical Supplies) is a preferred use contract established for state agencies to use for the purchase of a wide range of electrical supplies. This contract replaces C104390002 previously with Graybar Electric (Electrical Supplies). State agencies are advised that similar products are available from C109117001 with Grainger. State agencies are advised to check all contracts available to them for the purchase of these items and to choose the best product, best price, best delivery the various contracts make available to them. All contracts are “preferred use” contracts which means that the contracts have been bid with the goal of providing good market pricing and product variety to state agencies. Agencies are encouraged to use preferred-use contracts but in rare instances where the state agency can obtain like or similar products that meet the state agency’s needs at a better price, then the agency has authority to purchase the items from other sources so long as the provisions of the Local Purchasing Authority Delegation are followed. The Delegation can be viewed and downloaded from the internet at this site: <http://oa.mo.gov/purch/agencyinfo/deptpad.pdf>.
