09/21/09-09/19/09	09/25/09	Initial issuance of new statewide contract-Replaces Contact C10700001

Purpose: Contract C109302001 has been established for state agencies to purchase phones (Meridian and CLASS type) and related phone accessories.

Preferred Use: The contract shall be considered a preferred-use contract which means all state agencies should use the contract for the supplies on contract if needed. Even though the contract is considered a preferred-use contract, there will be rare situations where an agency may waive itself from using the contract **so long as such determination is supportable and in the best interest of the State.** Reasons for not using the contract shall include but shall not necessarily be limited to the following: offered packaging is not usable by the state agency; order delivery time is not meeting state agency's needs; specific item is out-of-stock for an unreasonable amount of time (to be determined by the state agency) without an acceptable substitute; specific item on contract is not what the state agency legitimately needs to meet its agency's public responsibilities; cost of the item exceeds historical and/or current market pricing and it would be unduly burdensome for the agency to pay the contract price.

Delivery: Not to exceed 30 days ARO

Warranty: Manufacturer's standard warranty on parts only; there is no warranty on labor

Renewal Options: Two one-year renewal options are available. Embarq can take a 2% price increase the first option and a 4% increase the second option.

SAM 2 Use: A line item in SAM2 has been established to correspond to each line item on the Pricing Page for the contract.

Pricing: Specific line items are set up for each phone and phone accessory available under the contract. Pricing is available on the next page of this notice. All pricing is quoted FOB Destination, Freight Prepaid and Allowed, which means state agencies shall **not** pay extra for freight and handling.

Pictures: Pictures and product information are now incorporated into this notice. It is hoped that the pictures and information help the contract-user choose the right product for their need. Feedback is always welcomed.

State technical contact available: If you have any questions about the suitability of equipment for your use or other technical questions, please contact Chris Wilson of ITSD at 573-526-3831.
