**HEAVY EQUIPMENT MAINTENANCE AND REPAIR  
(Statewide)**

---

**GENERAL INFORMATION**

**Multiple Contract Award:**

Multiple contracts have been awarded to assure that multiple service locations are available to allow state agencies a variety of maintenance and service locations so that their heavy equipment will be repaired within a timely fashion and at the lowest price possible. Therefore, state agencies should review the contracts thoroughly before repair work is started to achieve the lowest price possible considering the hourly labor rate and mileage charge. Attached is a map of the State of Missouri with the different areas indicated.

**CONTRACTORS SHALL PROVIDE THE FOLLOWING:**

**Inventory of Parts:**

The contractor is responsible for maintaining a reasonable inventory of repair parts and expendable maintenance parts on hand at all times.

Only standard (manufacturer or approved brand name) replacement parts can be used except when the state agency specially authorizes the contractor to substitute rebuilt or remanufactured parts.

**Repairs:**

Repairs must be commenced within 48 hours of delivery and acceptance of the unit needing repair service at the contractor's facility.

Repair service at the work site may be required by the state agency.

**Price List:**

The contractor shall provide a standard trade-recognized price list.

**Invoicing:**

The contractor will supply the state agency with an itemized invoice showing all parts/supplies with applicable discounts, services and where work was performed, and hours to complete service at the time work is completed.
