Specifications

- Power: 16 VAC, 250 mA transformer
- Weight: 1.1 kg
- Dimensions: 19.1 cm L x 19.1 cm W x 8.9 cm H

Meridian 5008

Digital Centrex Telephone

The M5008 telephone combines time-saving and convenience features with ease of operation. As with all sets in the MBS II Portfolio, the M5008 is designed to maximize use of Nortel Network's Meridian* Digital Centrex (MDC) features.

Features

- Since the M5008 is loop powered, you can be sure your display for Feature/Line Indicators will always work, even during power outages.
- Larger buttons on the keypad make dialing easy and quick.
- Eight line/feature keys let you configure the M5008 to suit your requirements.
- The M5008 includes eight programmable line/feature keys as well as conveniently placed, color-coded Hold and Release keys for improved efficiency and better call processing.
- The built-in speaker permits on-hook dialing and makes it easy to access voice mail.
- The Integrated Wall Mount Kit gives you everything you need to install the M5008 on the wall if you wish.

Meridian 5208

Digital Centrex Telephone

Equipped with a liquid crystal display, the M5208 combines time-saving and convenience features with easy operation.

Features

- The M5208 is MADN-capable, letting you program your set for appearances of other users directory numbers. Call coverage is simple.
- The 2-line X 24-character liquid crystal display can tell you who is calling and whether the call was transferred or forwarded. Armed with such information, you can answer personally and appropriately.
- Visual ringing indication alerts you to an incoming call with a flashing lamp. Even if you are on your primary line, you will not miss important calls.
- The M5208 includes eight programmable line/feature keys as well as conveniently placed, color-coded Hold and Release keys for improved efficiency and better call processing.
- The built-in speaker permits on-hook dialing and makes it easy to access voice mail.
- The M5208 is loop powered. Because local power is not required, your set will retain display capabilities even during a power outage.

Benefits

The M5208 is a good match when occasional call coverage and exceptional reliability are important. Terminate one or multiple lines, or use Multiple Appearance Directory Number (MADN) to maximize call coverage. As with all sets in the MBS II Portfolio, the M5208 is designed to maximize use of Nortel Networks Meridian Digital Centrex (MDC) features.

Meridian 5216

Digital Centrex Telephone

The M5216 is recommended when you need a central answering position or ACD support. It offers unique functionality, making it the perfect solution for call centers or other high-volume calling applications. Combined with the M522 Meridian Mate Expansion Module, the M5216 is also recommended as a mini-console.

Features

- The M5216 is headset compatible.
- The 2-line X 24-character liquid crystal display can deliver call information such as call progress, queue status, and calling name and number. Agents or the attendant can use this data to greet callers and speed transactions.
- Fourteen programmable line/feature keys let you tailor the set to fit your requirements. Assign additional directory numbers or special ACD features used by your organization.
- The M5216 supports a maximum of two M522 Meridian Mate expansion units to let you expand your answering position in a modular fashion.

Benefits

With liquid crystal display and headset compatibility, the M5216 offers powerful call coverage and call handling capabilities. As with all sets in the MBS II Portfolio, the M5216 is designed to maximize use of Meridian Digital Centrex (MDC) features.

Meridian 5316

Digital Centrex Telephone

The M5316 is the ideal set for busy professionals who conduct much of their business by phone. This set can also be used in combination with the M522 Meridian Mate Expansion Module as a mini-console or answering position.

Features

- Handsfree operation permits you to engage in a conference call while simultaneously performing others tasks. During the conference call, use the Mute key to confer confidentially with another person in the room.
- Thirteen programmable line/feature keys let you tailor your set to suit your needs. The Program key lets you further customize local features on your set, such as time and date.
- The M5316 gives you one-button access to the MDC features you use most, including Speed Call. The built-in Call Timer makes it easy to monitor calls. And the Speaker allows convenient on-hook dialing and access to voice mail.
- The 2-line X 24-character liquid crystal display ensures easy access to call information, including date and time.

Benefits

With a liquid crystal display and third generation handsfree capability, the M5316 offers powerful time-saving and productivity features. As with all sets in the MBS II Portfolio, the M5316 is designed to maximize use of Meridian Digital Centrex (MDC) features.

M522

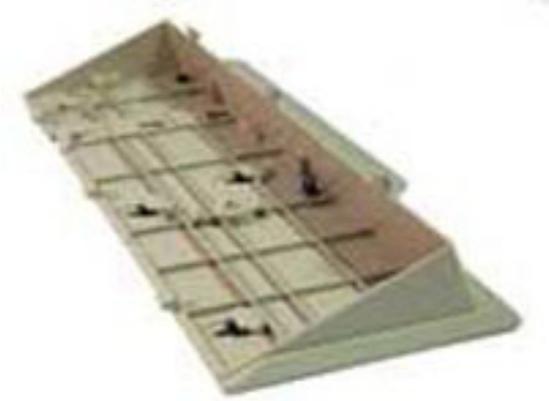

Digital Centrex Telephone Expansion Module

The M522 Meridian Mate Expansion Module is compatible with both the M5216 and M5316.

Features

- The M522 is a 22-button expansion unit, with associated LCD indicators, providing additional keys for lines or features.
- Up to two expansions can be used, for a total of 44 extra programmable buttons.
- Combined with Meridian Digital Centrex, the M522 offers effective mini-console capabilities.
- Colors available: Ash, Black

Line Item #009

Single Foot Stand

M522 Single footstand for attaching a single M522 to a M5216 or M5316 Digital Centrex Telephone.

Line Item #010

Double Foot Stand

M522 Dual footstand for attaching Two (2) M522 to a M5216 or M5316 Digital Centrex Telephone.

Vista M22 Audio Processor with Clearline audio

Ideal for professionals—particularly VoIP users—the Vista M22 audio processor delivers precise levels of listening comfort, sophisticated hearing protection, and superior audio performance. The Vista M22 includes Clearline audio to improve call quality in any environment, especially wideband VoIP. The audio processor includes near-universal compatibility with single and multi-line telephones, as well as ergonomically designed volume, headset/handset and mute controls. The Quick Disconnect feature between the audio processor and headset lets you move away from your phone without removing your headset or disconnecting the call. The Vista M22 comes complete with a lightweight 10-foot coil cord for freedom of movement at your desk.

Highlights

- Offers superior voice clarity with Clearline audio technology
- Delivers optimized audio levels for superior listening comfort – whatever the call
- Echo management for clearer calls
- Protection from loud noises
- Reduces background noise for clearer calls
- Volume, headset/handset and mute controls
- Adjustable incoming and outgoing volume
- One-button selection of headset or handset
- Supports more natural-sounding speech on wideband networks
- Compatible with most office and contact center phones
- Superior call clarity for all communications
- Supports the enhanced audio from the latest wideband VoIP phones

MX10 Audio Processor

The MX10 Universal Audio Processor connects your telephone and PC or external audio device to a Plantronics headset and provides control of the sound through your headset. The MX10 includes near-universal compatibility with single- and multi-line telephones. A Quick Disconnect connector allows you to walk away from your desk without removing the headset or disconnecting the call.

Highlights

- Switch easily between the phone and the PC or audio device.
- Switch between headset and handset with a single button.
- Near-universal compatibility with single- and multi-line telephones.
- Compatible with most sound cards.

PLANTRONICS TRISTAR®

PROFESSIONAL CORDED HEADSET SERIES

Ultra-light, discreet style for a stable, custom fit.

The TriStar headset is so light and stable, you'll forget you're wearing it. Its unique three-point design provides support behind, on top of, and in the ear for a discreet and comfortable fit. Advanced materials make TriStar incredibly light—less than 1/2 ounce—but still very durable.

Four earbud sizes let you select the fit that's right for you, delivering the very best in sound quality and all-day comfort for contact center and office professionals. TriStar is available with our trademark voice tube or a noise-canceling microphone, and is built to last. Backed by a two-year warranty, TriStar delivers unsurpassed reliability all day, every day.

- **Call quality at the next level.** Adding a Plantronics amplifier featuring Clearline™ audio technology protects from loud noises, reduces echoes and background noise, and equalizes call volume—all of which improves customer satisfaction and agent productivity.
- **Plantronics compatibility.** With Plantronics Quick Disconnect™ feature, TriStar works with all Plantronics amplifiers and USB-to-headset adapters. Direct connect solutions are also available for headset-ready phones and agent consoles, providing connection flexibility for your diverse working environment.

PLANTRONICS TRISTAR®

PROFESSIONAL CORDED HEADSET SERIES

TriStar® Key Features

- **Exceptionally lightweight, over-the-ear style.** Three-point design provides support behind, on top of, and in the ear, for unsurpassed stability and all-day comfort.
- **Four user-selectable earbuds** for the perfect custom fit.
- **Discreet, lightweight design.** Voice tube model weighs only 0.42 ounces. Noise-canceling model weighs 1 ounce.
- **Supports Clearline™ audio technology.** Ensures precise listening level, sophisticated hearing protection and superior audio performance when used with Plantronics amplifiers.
- **Quick Disconnect™** feature lets you walk away from your phone while still wearing your headset. A 10 foot coil cord with adjustable clothing clip allows additional freedom of movement.
- **Can be worn on either ear.**
- **Available with Voice Tube or noise-canceling microphone:**
Voice tube—Plantronics' trademark design is light weight, unobtrusive and delivers great sound quality in all but the noisiest environments.
Noise-canceling microphone—Ideal for noisy environments (over 65 dB).
- **Requires Plantronics amplifier,** USB-to-headset adapter or direct connect cable to connect to phone.

Encore®

Telephone Headset Family

Top-of-the-line headsets with premium sound quality

Over-the-head style provides optimum comfort and durability

The Plantronics® Encore headset delivers the very best in sound quality, comfort and reliability for call center and office professionals.

Encore sets the standard in premium sound quality with our unique Sound Enhancement System (SES®). A tone control switch lets you select the level of bass and treble that you prefer for a full, rich sound.

We paid equal attention to fit and all-day wearing comfort. Encore features super-soft ear cushions, and a “click-stop” adjustment system on the headband and turret that provides exactly the right fit and consistent positioning of the microphone.

We also understand that durability and reliability are of critical importance, and we’ve built Encore to last.

Backed by a two-year warranty, Encore delivers unsurpassed durability all day, every day.

HEADSET AMPLIFIER REQUIRED

AMP UP!

Plantronics offers amplifiers to connect our headsets to your telephones, including cordless models for office mobility.

Direct-connect Polaris™ headsets are available for headset-ready phones and agent consoles.

World Leadership: Plantronics is a world leader in lightweight communications headsets with over 40 years of experience. We offer a complete line of headsets for call center, office, home, mobile and computer applications, all backed by a service and support team that is second to none.

The Plantronics voice tube advantage: Plantronics invented the voice tube and continues to improve the design to deliver the best in performance and style. Our voice tubes are the only ones that slide back and forth for better positioning and

improved sound quality. You can also add color to your conversations with AttiTube™ color voice tubes.

Reliability for business-critical applications: Plantronics has years of experience developing headsets for mission-critical applications, including 911 centers, the FAA and even the headset that carried Neil Armstrong’s first words from the moon. That same attention to durability and reliability goes into the headsets we design for your business-critical applications.

Encore®

Telephone Headset Family

PLANTRONICS

DUOPRO®

PROFESSIONAL CORDED HEADSET SERIES

Most versatile headset.

Versatility is the hallmark of our innovative DuoPro line, with best-in-class audio performance and all-day wearing comfort for contact center and office professionals.

The DuoPro series lets you choose your fit from over-the-ear, over-the-head or behind-the-head options while delivering superior comfort, sound and reliability. The unique double T-pad headband rests on your head, not the ear, for ultimate stability and increased comfort.

The DuoPro is available with either the Plantronics trademark voice tube or a noise-canceling microphone that includes an innovative anti-twist boom. DuoPro is backed by a two-year warranty for unsurpassed durability all day, every day.

- **Call quality at the next level.** Adding a Plantronics amplifier featuring Clearline™ audio technology protects from loud noises, reduces echoes and background noise, and equalizes call volume—all which improve customer satisfaction and agent productivity.
- **Plantronics compatibility.** With Plantronics Quick Disconnect™ feature, DuoPro works with all Plantronics amplifiers and USB-to-headset adapters. Direct connect solutions are also available for headset-ready phones and agent consoles, providing connection flexibility for your diverse working environment.

PLANTRONICS DUOPRO®

PROFESSIONAL CORDED HEADSET SERIES

DuoPro® Key Features

- **Customizable comfort.** Allows you to choose your favorite style.
- **Advanced ergonomic design.** Provides superior balance, fit and comfort. Choose your preferred fit:
 - Over-the-head style**—Unique double T-pad headband distributes weight evenly so there's never a speaker pad pressing on your ear.
 - Over-the-ear style**—Conformable earloop can be molded for a secure, comfortable fit.
 - Behind-the-head style**—Optional contemporary design neckband provides a stable, discreet fit. *Neckband is only available as an accessory, sold separately.*
- **Available with voice tube or noise-canceling microphone:**
 - Voice tube**—Plantronics' trademark design is light weight and unobtrusive. Ideal for most offices and contact centers. Delivers great sound quality in all but the noisiest environments.
 - Noise-canceling microphone**—DuoPro features an innovative anti-twist boom for perfect placement every time. Ideal for noisy environments (over 65dB).
- **Supports Clearline™ audio technology.** Ensures precise listening level, sophisticated hearing protection and superior audio performance when used with Plantronics amplifiers.
- **Can be worn on either ear.**
- **Quick Disconnect™ feature** lets you walk away from your phone while still wearing your headset. Adjustable clothing clip and 10 foot coil cord allow for freedom of movement.
- **Requires Plantronics amplifier, USB-to-headset adapter or direct connect cable** to connect to phone.

PREMIER® 7010 Basic Telephone

FEATURES

- ▶ Single-line
- ▶ 90-volt message waiting light
- ▶ ADA compliant handset volume control
- ▶ Line powered
- ▶ Modular data jack
- ▶ Ringer volume control
- ▶ Hearing aid compatible
- ▶ A-lead control (switchable)
- ▶ Large faceplate area
- ▶ Oversized dial pad
- ▶ Smudge-resistant finish
- ▶ Facemat with transparent overlay
- ▶ Fully modular cords
- ▶ 12' handset cord
- ▶ 14' line cord
- ▶ Desk/wall mountable
- ▶ Footprint 6.6" x 9.5"
- ▶ Two year warranty

The PREMIER 7010 is a basic, single-line phone with all the functions of a real workhorse embodied in a sleek style that is great for business or hospitality applications. Best of all, this phone is competitively priced, making it a great value.

Time-tested features include a convenient Data Port, an amber neon 90-volt message waiting light to ensure messages are instantly noticed, and ample space is provided for a customized facemat. Handset volume is easily amplified at the press of a button located on the front of the phone and returns to normal after each call. The ringer volume is easy to adjust by switching between the low, medium and high settings.

The PREMIER 7010 is line powered to eliminate the need for batteries or AC adapters. A modular data port runs parallel with the telephone line for connecting modems, laptops, and fax or answering machines. Other features include an oversized dial pad and an A-Lead control option that's selectable to provide extension-in-use indication on a host console.

Every PREMIER Series 7000 telephone is quality-assured—backed by a two-year limited warranty. PREMIER 7010 telephones undergo rigorous lab testing before earning the PREMIER brand. They are also FCC registered, Industry Canada certified and UL listed. This telephone meets ADA receiver volume control requirements.

The PREMIER Series 7000 family of telephones ranges from basic single-line to two-line speaker telephones with memory. If you're looking for a telephone that is loaded with user-friendly features, look to PREMIER Series 7000.

- ▶ Desk/wall mountable
- ▶ Footprint 6.6" x 9.5"
- ▶ Two year warranty

The PREMIER 7030 has a streamlined look, classic “goes anywhere” styling and enhanced capabilities.

The handset volume is easily amplified at the press of a button located on the front of the phone and returns to normal after each call. Users will not miss a word of important conversation with our 2-level adjustment to amplify a caller's voice. The ringer volume is easy to adjust by switching between the low, medium and high settings.

A convenient Data Port accommodates modems, laptops, and fax or answering machines.

The Hold Button lights bright red when in use, the Redial Button retains up to 31 digits, and the Flash Key works for conferencing, call waiting or call transfer applications. This set is line powered so there is no need for cumbersome AC Adapters.

Every PREMIER Series 7000 telephone is quality-assured—backed by a two-year limited warranty. PREMIER 7030 telephones undergo rigorous lab testing before earning the PREMIER brand. They are also FCC registered, Industry Canada certified and UL listed. This telephone meets ADA receiver volume control requirements.

- ▶ Non-scuff traction feet
- ▶ 12' handset cord
- ▶ 14' line cord
- ▶ Desk/wall mountable
- ▶ Footprint 6.6" x 9.5"
- ▶ Two year warranty

The PREMIER 7270 two-line with speakerphone continues the same sleek style of the PREMIER Series 7000 family. The PREMIER 7270 is a natural choice for hotel or business installations. This set meets ADA receiver volume control requirements, includes a data jack for laptop hookups, large dial pad, 90-volt message waiting light, a speakerphone with volume control and line powered operation to eliminate the need for batteries or AC adapters. A long-lasting lithium battery safeguards stored numbers in the event of phone service interruption.

The PREMIER 7270 is perfect in guest rooms catering to busy business travelers. When considering sophisticated call handling, think PREMIER 7270.

Every PREMIER Series 7000 telephone is quality-assured—backed by a two-year limited warranty. PREMIER 7270 telephones undergo rigorous lab testing before earning the PREMIER brand. They are also FCC registered, Industry Canada certified and UL listed. This telephone meets ADA receiver volume control requirements.

The PREMIER Series 7000 family of telephones ranges from basic single-line to two-line speaker telephones with memory. If you're looking for a telephone that is loaded with user-friendly features, look to PREMIER Series 7000.

PREMIER 7270

Plantronics CT14

Ideal for home and small-office use, the CT14 DECT 6.0 cordless headset phone offers enhanced sound quality and DECT 6.0 wireless technology for an interference-free wireless range of up to 300 feet. Equipped with everything your busy life and work require, the CT14 includes a convertible headset that can be worn over-the-head or over-the-ear, a phonebook for up to 70 entries, a 30-caller ID memory with a simple "save to phonebook" feature, and a convenient charging base.

- DECT 6.0 (1.9 GHz) wireless technology limits interference from wireless networks and home appliances during calls for superior sound and range of up to 300 feet
- Noise-canceling microphone blocks out background noise for enhanced sound clarity
- Convertible headset design can be worn either over-the-head or over-the-ear
- Dial pad offers up to 10 hours talk time or 8 days standby on a single charge
- Integrated belt/clothing clip offers hands-free convenience
- One-year limited warranty

▶ Polycom® VoiceStation® 300

Crystal-clear conferencing
for smaller rooms and desktops

The quality of Polycom designed for offices and small meeting spaces

The Polycom VoiceStation 300 is a small conference phone ideally suited for desktops, offices, and other small rooms. With a microphone range of up to seven feet, the VoiceStation 300 is ideal for small conferences with three to four participants. Plus its compact industrial design fits well on a desk or small table, making it a great solution for offices. The VoiceStation 300 provides Polycom's legendary voice quality at an affordable price.

Featuring Polycom's award-winning Acoustic Clarity Technology, the VoiceStation 300 delivers significantly improved voice quality over the previous-generation VoiceStation 100. The VoiceStation 300 features three sensitive microphones that offer 360-degree room coverage. Smart technology, such as Dynamic Noise Reduction (DNR), provides maximum microphone sensitivity, while reducing distracting room and background noise. It also features technology that resists interference from mobile phones and other wireless devices, delivering clear communications with no distractions. Plus, Polycom's legendary full-duplex technology ensures that everyone on the call can be heard.

Convenient controls for volume, mute, redial, flash and hold are located on an intuitive, easy-to-use keypad. A handset phone can be plugged in for private calls, or simply switch back to the VoiceStation 300 for hands-free conversations.

Benefits

- ▶ **More productive calls** – Polycom's patented Acoustic Clarity Technology allows simultaneous, natural, free-flowing conversation
- ▶ **360-degree room coverage** – A powerful, digitally-tuned custom speaker and three sensitive microphones provide uniform coverage from up to 7 feet away
- ▶ **Hands-free calls** – A great hands-free conferencing solution for home offices and small businesses
- ▶ **Resists interference from mobile phones** – Clearer calls with no distracting noise from wireless devices
- ▶ **Easy to use and install** – Connects into any analog phone jack
- ▶ **Secondary phone options** – Plug in a fax machine or computer modem, or plug in a handset for private calls

 Polycom® SoundStation2™
Setting the Standard. Again.

Remarkable Voice Quality. The Standard for Everyday Conferencing.

The SoundStation2, Polycom's next generation conference phone, is redefining the standard for business quality voice conferencing. With industry-leading full duplex for natural, simultaneous two-way conversation, the SoundStation2 will exceed your expectations in medium to small conference rooms. Delivering remarkable voice quality equal to the SoundStation Premier® and a 50% increase in microphone sensitivity over the award-winning SoundStation, users can speak in a normal voice and be heard clearly up to ten feet away – making every call a more productive call. There are three SoundStation2 models: SoundStation2, nonexpandable, SoundStation2, non-expandable, with display, and SoundStation2, expandable, with display.

SoundStation2 provides users with advanced features, including a large backlit display that offers easily visible call information and telephone functions*. Smart technology, such as Dynamic Noise Reduction (DNR), provides maximum microphone sensitivity, while reducing distracting room and background noise. And the SoundStation2 offers 360-degree microphone coverage with intelligent mixing – so only the microphone closest to the speaker is on for crystal clear conferencing. It also features technology that resists interference from mobile phones and other wireless devices, delivering clear communications with no distractions. Add traditional telephone features like redial, mute, transfer, and hold and you have a conference phone that's also familiar and easy to use.

Improve the quality and increase the productivity of your next conference call with the Polycom SoundStation2. It's the conference phone you won't stop talking about!

Benefits

- ▶ **More productive calls** – Polycom's patented Acoustic Clarity Technology allows simultaneous, natural, freeflowing conversation
- ▶ **Hear and be heard clearly** – Twice the loudness and microphone sensitivity of the original SoundStation® – eliminates ear strain and repetition
- ▶ **Resists interference from mobile phones** – Clearer calls with no distracting noise from wireless devices
- ▶ **Backlit display provides important information** – Displays console phone number, number called, duration/progress of call and supports worldwide Caller ID**
- ▶ **Ability to increase coverage** – Optional extension microphones expand coverage for larger conference rooms
- ▶ **Easy to use and install** – Connects into any analog phone jack and can be connect to a PBX with an analog extension

** Not available on all models.

* Not available on all models

** Due to the diversity of Caller ID standards, some features may not be available in all areas. In addition, the quality of the telephone line connection may affect Caller ID functionality. Caller ID service may require a subscription from a service provider in your area.

† SoundStation2 uses a cable that connects to a standard 2.5mm headset connector. If your mobile phone model does not support this type of connection you will need an adapter (not included).

Connecting the SoundStation2 to a mobile phone is analogous to connecting a headset to a mobile phone. Not all mobile phone models recognize the SoundStation2 as a headset. For a list of mobile phones that are known to work with SoundStation2, please consult www.polycom.com.

Polycom® SoundPoint® Pro SE-225

Corporate-quality conferencing from your desktop

Benefits

Acoustic Clarity Technology –

Allows simultaneous natural conversation – the industry's best full duplex

360-degree room coverage –

Two microphones provide 360-degree room coverage for offices

All-in-one conferencing –

Easily switch between speakerphone, headset, and handset modes

Based on proven technology –

Utilizes the same industry-leading conferencing technology that has made Polycom SoundStation® conference phones the top choice of corporations worldwide

Easy-to-install and use –

Plugs directly into power outlet and standard analog telephone jack

Full-featured 2 line business phone

SoundPoint Pro SE-225 seamlessly integrates handset and headset telephone functionality with crystal clear, hands-free voice conferencing in an elegant personal business phone.

With the touch of a button, SoundPoint Pro lets you hold clear, multipoint conference calls with up to two additional participants. Polycom's Acoustic Clarity Technology enables callers to speak when they want, without the clipped sentences and one-way conversations that are common with ordinary business speakerphones. The SoundPoint Pro has versatile features like a front-facing microphone for individual use and a rear microphone for dual-mic, 360-degree coverage in group conferencing situations. Plus, you can connect an optional headset for high-quality, hands-free applications.

In a home or corporate office, speak naturally without wires and get more done efficiently and productively with SoundPoint Pro SE-225.

Make Great Things Happen with SoundPoint Pro SE-225

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organization's survival. As the market leader in voice, video, data and Web solutions, our award-winning conference technology makes it easy for people to interact and maximize productivity — over any network, in just about any environment, anywhere around the globe. That's why more organizations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen. See how you, too, can achieve great things with Polycom SoundPoint Pro SE-225.

Line Item #037

Walker Clarity W1000

The **Walker Clarity W1000** Amplified Corded Telephone is **designed for people with partial hearing loss**. Built with volume and pitch controls and a large ring indicator light on the base, the Walker Clarity W1000 makes receiving and enjoying telephone calls much easier. This model enhances the volume of high-frequency sounds and clarifies high-pitch voices. A **volume-boost button** lets you turn this feature on or off depending on who's using the phone.

There's also a 3.5 mm jack on the Walker Clarity W1000 for assistive listening devices. **Large buttons** make dialing simple, and hold, pause and mute functions let you talk to someone in the room without the person on the phone hearing. And a **10-number memory** lets you call your favorite numbers with the touch of a button.

W1000 Features:

- Amplified Corded Telephone
- Single Line Operation
- **Certified Min. Gain of 26dB**
- One-Touch Programmable Memory / Speed Dial Keys
- **Visual Ringer**
- Amplified Ringer w/ Pitch Control
- Low Noise Amplifier
- Automatic Amplifier
- Resets to Non-Amplified Mode after Hanging Up, Returns to Pre-Set Amplified Level When Boost Button is Pushed
- Hearing Aid Compatible
- Raised Dot on #5 Key
- Boost Button
- Emergency Help button
- Hold / Mute Buttons
- Wall Mountable
- Redial / Flash / Pause
- 3.5mm Jack
- For Assistive Listening Devices Such as Telecoil Couplers
- Line Powered
- Tone / Pulse Switch
- Clarity Power Control
- Sound Level Indicator
- Program Button
- Memory Location

Line Item #039

Superprint 4425A

Ideal for emergency services to handle calls from people who are deaf or hard of hearing, the Superprint 4425A includes a built-in 24-character printer that prints the date and time of each call and keeps an exact record of the conversation. It includes Turbo Code, ASCII, and Baudot codes for efficient communication in emergencies.

Line Item #040

Clarity Walker W10 - In-line telephone amplifier

The Walker W10 in-line amplifier is universally compatible and designed to increase incoming signals with up to 26 dB of gain above the normal level. Both units contain their own power source. The W10 is AC powered; it may be easily placed on a desktop and will work with virtually any standard or electronic phone, single or multi-line. An added feature of the W10 is that it's lightweight, durable, and compact so it may be carried anywhere for ultimate convenience.

PLANTRONICS

SUPRAPLUS[®]

PROFESSIONAL CORDED HEADSET SERIES

The gold standard in performance and comfort—
even for the most phone-intensive applications.

The Plantronics SupraPlus telephone headset family has been trusted by enterprises around the world for years, and continues to set the standard for durable, lightweight corded headsets, designed for contact center and office professionals.

- **Business-critical reliability and comfort.** SupraPlus not only meets or exceeds all specifications set by our existing world-class professional headsets, but this family of headsets also delivers superior all-day, every-day comfort and reliability.
- **Call quality at the next level.** Adding a Plantronics amplifier featuring Clearline™ audio technology protects from loud noises, reduces echoes and background noise, and equalizes call volume.
- **Stylish, lightweight design.** The light flexible cable and comfortable headband design, as well as the bendable noise-canceling microphone boom, work to enhance audio quality and the user experience.
- **Plantronics compatibility.** With Plantronics Quick Disconnect™ SupraPlus works with all Plantronics amplifiers and USB-to-headset adapters. Direct connect solutions are also available for headset-ready phones and agent consoles, providing connection flexibility for your diverse working environment.

>> H251N-UNC Monaural headset with
ultra noise-canceling microphone

PLANTRONICS SUPRAPLUS®

PROFESSIONAL CORDED HEADSET SERIES

SupraPlus® Key Features

- **Ultra noise-canceling (UNC) microphones.** New UNC and wideband models feature an extended boom for industry-leading noise-canceling and echo performance, allowing for even clearer conversations in noisy environments.
- **Excellent receive-side audio quality.** A greater receive-side frequency response improves listening intelligibility.
- **Comfortable, lightweight design.** Adjustable headband, foam ear cushions and comfort T-Pad create a stable, comfortable fit.
- **Bendable click-stop microphone boom.** Stays in position for clearer voice transmission.
- **Small, light, flexible cable.** Designed for lightweight durability, with a single-cable design for binaural models.
- **Quick call feature.** Headband twists out of the way for convenient quick call pick up.
- **Monaural or binaural styles.** Monaural lets you hear the conversation and what's going on around you. Binaural cuts out distracting background noises.

Mirage[®]

Telephone Headset Family

Convenient on/off design for fit and flexibility

Sculpted, ergonomic shape fits perfectly behind either ear

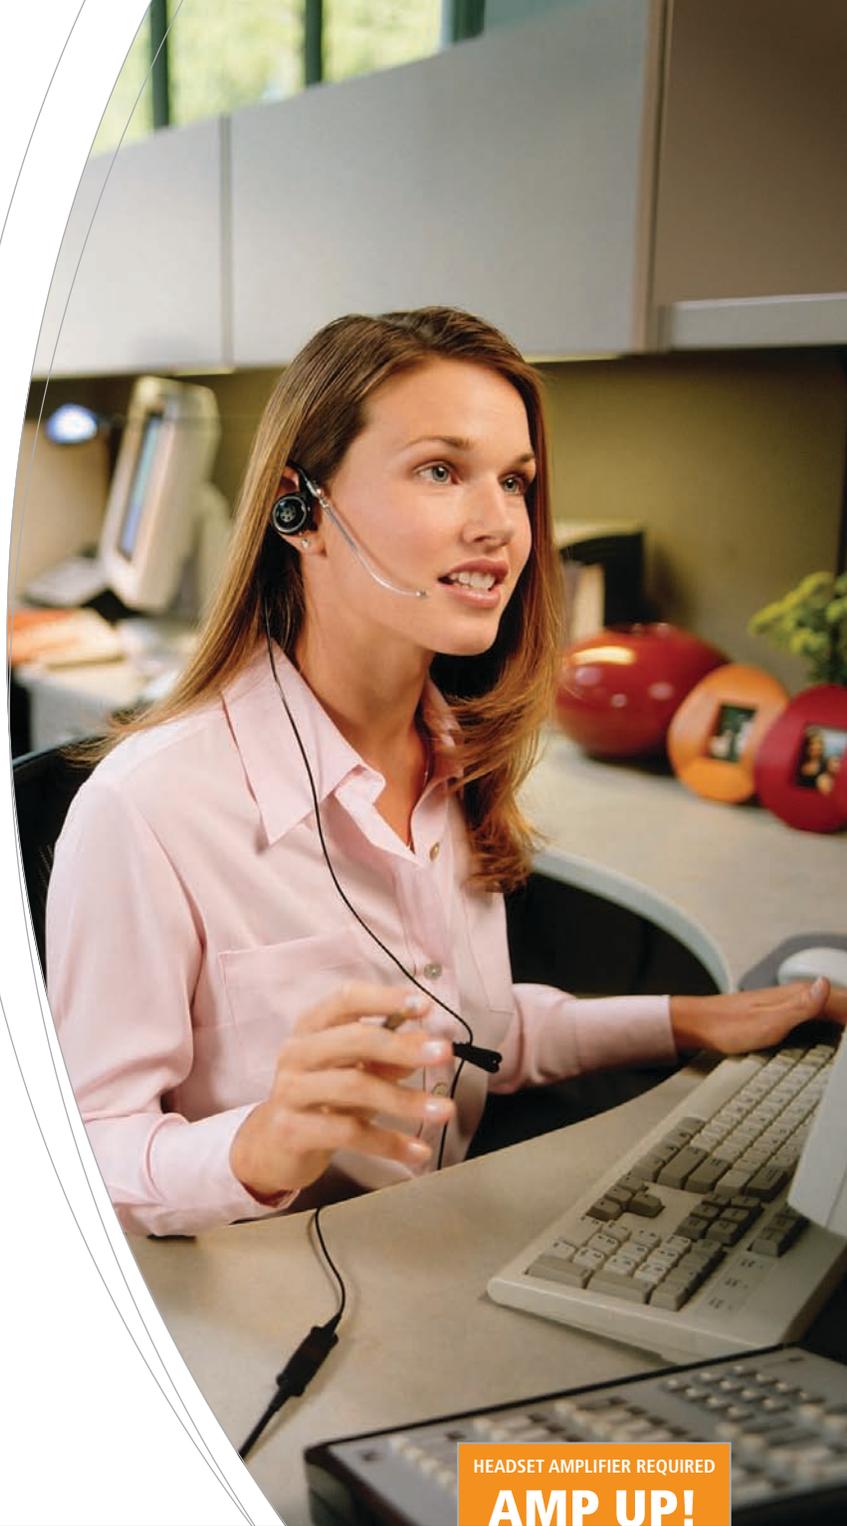

We understand the pace of today's busy offices and call centers, so the Mirage headset was designed to put on and take off quickly and easily. The sculpted over-the-ear shape and smooth surfaces of Mirage make it easy to slip on and off.

Mirage fits comfortably behind either ear, with a balance that keeps the cord out of your way. The speaker rotates so it rests lightly and comfortably against your ear, providing excellent sound.

Mirage is available with our trademark voice tube, for most call center or office environments, or a noise-canceling microphone when you need your voice to be clearly heard.

Backed by a two-year warranty, Mirage delivers unsurpassed durability, all day, every day.

HEADSET AMPLIFIER REQUIRED

AMP UP!

Plantronics offers amplifiers to connect our headsets to your telephones, including cordless models for office mobility.

Direct-connect Polaris™ headsets are available for headset-ready phones and agent consoles.

World Leadership: Plantronics is a world leader in lightweight communications headsets with over 40 years of experience. We offer a complete line of headsets for call center, office, home, mobile and computer applications, all backed by a service and support team that is second to none.

The Plantronics voice tube advantage: Plantronics invented the voice tube and continues to improve the design to deliver the best in performance and style. Our voice tubes are the only ones that slide back and forth for better positioning and

improved sound quality. You can also add color to your conversations with AttiTube™ color voice tubes.

Reliability for business-critical applications: Plantronics has years of experience developing headsets for mission-critical applications, including 911 centers, the FAA and even the headset that carried Neil Armstrong's first words from the moon. That same attention to durability and reliability goes into the headsets we design for your business-critical applications.

Mirage®

Telephone Headset Family

FEATURES

- **Lightweight, convenient** over-the-ear design provides easy on/off flexibility.
- **Ergonomically sculpted** shape fits comfortably behind either ear.
- **Adjustable speaker** rests lightly against the ear.
- **Supports SoundGuard® Plus™ and Call Clarity™** technologies for superior sound when used with Plantronics amplifiers.
- **Quick Disconnect™** lets you walk away from your phone while still wearing your headset.
- **10-foot coil cord** and adjustable clothing clip for freedom of movement.
- **Available with voice tube or noise-canceling microphone:**

Voice tube—Plantronics' trademark design, lightweight and unobtrusive, delivers great sound quality in all but the noisiest environments.

Noise-canceling—For clear conversations in noisy environments (over 65dB).

- **Warranty: Two years** for unsurpassed durability
- **Requires Plantronics amplifier** to connect to your telephone.
- **Polaris™ versions available** for use with headset-ready phones and agent consoles.

Polycom® SoundPoint® Pro SE-220

Professional, hands-free conferencing from your home or office desktop

Benefits

Acoustic Clarity Technology –

Allow simultaneous natural conversation – the industry's best full duplex

All-in-one conferencing – Easily

switch between speakerphone, headset, and handset modes

Based on proven technology – Utilizes

the same industry-leading conferencing technology that has made Polycom SoundStation® conference phones the top choice of corporations worldwide

Easy-to-install and use – Plugs directly

into power outlet and standard analog telephone jack

Full-featured 2 line business phone

SoundPoint Pro SE-220 seamlessly integrates handset and headset telephone functionality with crystal clear, hands-free voice conferencing in an elegant personal business phone.

With the touch of a button, SoundPoint Pro lets you hold clear, multipoint conference calls with up to two additional participants. Polycom's Acoustic Clarity Technology enables callers to speak when they want, without the clipped sentences and one-way conversations that are common with ordinary business speakerphones. The SoundPoint Pro has versatile features like a front-facing microphone for voice conferencing. You can also connect an optional headset for high-quality, hands-free applications.

In a home or corporate office, speak naturally without wires and get more done efficiently and productively with SoundPoint Pro SE-220.

Make Great Things Happen with SoundPoint Pro SE-220

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organization's survival. As the market leader in voice, video, data and Web solutions, our award-winning conference technology makes it easy for people to interact and maximize productivity — over any network, in just about any environment, anywhere around the globe. That's why more organizations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen. See how you, too, can achieve great things with Polycom SoundPoint Pro SE-220.

 **POLYCOM®**
TOGETHER, GREAT THINGS HAPPEN.

▶ Polycom® SoundStation VTX™ 1000

The world's first wideband conference phone

Revolutionary voice quality and clarity from up to 20 feet away.

The Polycom SoundStation VTX 1000 with Acoustic Clarity Technology is truly a leap in voice conferencing technology. It's the world's first conference phone that automatically adapts to each meeting environment, providing high fidelity voice clarity for all participants. With the SoundStation VTX 1000, conference call participants can speak at a normal, natural conversation level and be heard clearly from up to 20-feet away from the microphone – even in large conference rooms. And, when two SoundStation VTX 1000 conference phones connect on opposite ends of a call, the phones automatically connect in Polycom HD Voice, resulting in extraordinary fidelity. SoundStation VTX 1000 is the voice platform for the future. No wonder Polycom is the #1 choice in conference phones, worldwide.

About Polycom

Polycom, Inc. (NASDAQ: PLCM) is the global leader in telepresence, video, and voice solutions and a visionary in communications that empower people to connect and collaborate everywhere.

Companies choose Polycom solutions because they allow geographically dispersed workforces to communicate more effectively and productively over distances. Using Polycom voice, video, and telepresence products and services, people connect and collaborate with one another from their desktops, meeting rooms, class rooms, and mobile settings rather than travelling to one place to solve problems.

Find out how your workers can quickly collaborate "face-to-face" wherever they are. Visit www.polycom.com.

Benefits

- ▶ **Acoustic Clarity Technology** – Allows simultaneous natural conversation – the industry's best full-duplex
- ▶ **Unparalleled room coverage** – Speak naturally from up to 20-feet from a microphone and be heard clearly on the far-end
- ▶ **Revolutionary voice quality** – The world's first phone to deliver wideband voice over ordinary telephone lines; it's like going from black and white to color TV!
- ▶ **Built-in investment protection** – The world's first conference phone that allows you to download new software remotely through an ordinary telephone line to add new features and applications. Ask about our SharedCare Plus Program
- ▶ **Resists interference from mobile phones** – Clearer calls with no distracting noise from wireless devices
- ▶ **Maximum configuration flexibility** – Has independent input and output, bass/treble controls, and internal mic and speaker control for multiple uses and applications including external speakers/markets
- ▶ **Easy integration** – With Polycom Vortex® installed room systems, Polycom VSX™ group video conferencing solutions and Global Management System™

Polycom® VTX™ 1000 Features and Specifications

Additional SoundStation VTX 1000 features/benefits

- Noise reduction technology automatically minimizes PC, projector, and HVAC sounds
- Automatic mic selection – only one mic is on at a time to remove “in the well” sound
- Independent microphone, echo-cancelled channels that optimize to their individual environment for better sound
- Includes technology that resists interference from mobile phones and other wireless devices
- Extension mics provide even greater room coverage for larger rooms
- Subwoofer for audio extension down to 80 Hz, which provides clearer, lifelike sound
