Subject: House Redistricting Comments

Mr. Hesser:

Please accept this email as my official public comments in regard to Missouri House redistricting. I currently represent the 22nd District which includes the entire counties of Chariton and Randolph and the southern portion of Macon County. I recognize boundaries will change due to the adjustment in population. Notwithstanding this change, I encourage your efforts to ultimately maintain Chariton and Randolph counties together for two overarching reasons: 1) these counties have established a regional economic development initiative which benefits both counties. As such, it would be important to have representation for them that would not conflict but would support their regional interests for economic and policy purposes; 2) school districts transcend the county lines. Though many live in Randolph County, their children attend Salisbury High School in Chariton County; therefore, they have a vested interest in representation that affects both counties. I find myself in that situation as I live in Randolph County but my youngest son attends Salisbury. It has been beneficial to represent the school district to which I am most connected and informed.

In addition, as the district expands, a logical geographic expansion would be along the Missouri River corridor south of Chariton County into Howard County.

I appreciate the opportunity to share these thoughts.

Thank you,
Randy Asbury

CAMPBELL-1

**Written Testimony for Submission to the 2011 Missouri House & Senate
Redistricting Commissions**

I live in House District 126 and Senate District 32.

In 2002 and again in 2010 there was only one candidate on the ballot for Senate District 32. In 2002 the voter turnout was 36,993 and in 2010 it was 45,190. In 2006, when there were 2 candidates on the ballot, voter turnout was greater than 55,000. This illustrates the point that contested races result in greater voter turnout.

Since the last redistricting process took place in 2001, all elections in my House and Senate Districts have been won by Republicans with over 64% of the vote. While this part of the state is traditionally conservative, I believe that these outcomes are due in part to the oddly-shaped and contorted district boundaries that were created in 2001. I further believe that my districts, as they are now drawn, inhibit the likelihood of meaningful and vigorous general elections.

It is your Constitutional charge to create districts such that "each district shall be composed of contiguous territory as compact as may be." An examination of House District 126 and Senate District 32 will reveal that neither is "as compact as may be."

I ask you to create fair districts that will foster increased voter participation by giving Missourians genuinely competitive legislative races.

Sincerely,

Don Campbell
948 S Palomino Rd
Carthage, MO 64836-7708

ELLINGER-1

To the House Apportionment Commission:

Respectfully submitted,

I would like to comment on the proposed redrawing of what is now the 72nd House Legislative District. According to the Skaggs/Davis map, where I live and presently represent is drawn into the proposed 87th district.

The old 72nd District is six miles long and six miles wide. On the proposed Skaggs/Davis map, part of the area which is currently in the 72nd district will be included in the 87th District. The 87th District would stretch over 30 miles east and west, from the city limits of St. Louis City to Woods Mill Road in St. Louis County. This proposal is not compact. The proposed 87th would be an elongated and disjointed, mixing a people of widely divergent issues.

Instead, I respectfully request that the 72nd District contain the area of University City currently within the boundaries of the district and add to it the following areas:

All of University City south of Delmar (except a small cutout section that is currently in the 64th district) and the portion of University City north of Delmar that has been removed from the district on the Skaggs/Davis map. Further, the new district should include what is currently included in the 72nd district, the cities of Pagedale and Wellston which are north of University City. This configuration would be compact, contiguous and contain people of shared commonality.

I do not believe anyone would object to inclusion of Wellston and Pagedale in the 72nd District.

The rest of the current 72nd District would move west and south to take in all of Olivette and most of Ladue and Frontenac. The end result of the newly proposed 72nd would be made up of almost entirely of the Ladue and University City School Districts and would be contiguous and compact.

As for the new 87th, it seems more reasonable to have Lindberg or I-270 serve as the eastern boundary and run west, not east. The 87th could easily be made up of Town & Country, Wildwood, Chesterfield and Ballwin. It would be contiguous, compact and represent people of common interest.

Thank you for your attention to this matter.

Representative Rory Ellinger

District 72
St. Louis County
314-640-0095

Guinther - 1

My name is Christine Guinther, and I live in House District 99. I appreciate the opportunity to share some of my thoughts about redistricting with this panel.

Since the 2001 redistricting process we have seen a decline in the willingness of candidates from both parties to run for the general election because, very frankly, the way districts are drawn discourages people from running. When you have districts that are out of proportion and don't allow legitimate candidates to run a fair race, the level of local participation and voter turnout is reduced.

In 2004 and 2010 there was only one candidate on the ballot for House District 99. In those years, turnout in those races was just at 12,000 votes in 2010 and 14,000 votes in 2004. Meanwhile in years where there were actually 2 candidates on the ballot we've seen turnout greater than 15,000 or 18,000 votes.

It is your obligation to re-allocate Missouri's population among 163 House Districts. Your explicit Constitutional charge is to

“establish each district so that the population of that district shall, as nearly as possible, equal that figure and that each district shall be composed of contiguous territory as compact as may be”

I hope you will be true to that obligation and be fair to Missouri voters – ALL Missouri voters. I'm not asking you to “over think” this process but I hope you will be mindful enough to create honest and succinct districts that are NOT biased toward any one party, demographic or incumbent.

I highly encourage you to draw a map that is reasonable and encourages more participation and more, rather than less, access to the ballot. The only hope we have of getting this country back on track is to take the partisan sting and infighting out of the design currently inherent in Missouri government. I ^{trust} hope this commission, ~~although appointed based on party,~~ will rise above the fray and draw better districts than were drawn in 2001.

*Consider these
Concerns*

George Jean Nathan, an American Drama Critic and Editor stated, "Bad politicians are sent to Washington by good people who don't vote." We ask for a plan that energizes and encourages the good people of Missouri to run for office and then vote. We need a plan that leads to better policy from legislators who answer to more of their constituents.

Thank you for your attention.

To The Missouri House of Representatives
From Residents & Businesses of the City of St. Ann

RE: Skaggs-Davis 1 House Plan

We appreciate the work done on the proposed redistricting of Missouri House Districts, but are concerned by the splitting of our community, the City of St. Ann. Half would form the new 83rd in a compact and contiguous district. But the northwestern quadrant of St. Ann would join Bridgeton in a proposed 82nd District that would stretch to Gumbo and Chesterfield.

St. Ann has historically remained in one State Representative District and has been well represented over those many decades. We fear that many residents of St. Ann would lose their collective voice in a district that traverses such a large part of St. Louis County over such diverse populations.

It would also appear that there is a relatively easy way to keep St. Ann intact since the new 82nd wraps around the new 83rd. A new line between these two proposed districts alone could solve our concerns.

We would respectfully request that you consider this change for the good of our community and thank you for the work you have put into your efforts thus far.

Sincerely,

Robert A. Schrader, Chief of Police
St. Ann Police Department

McGeoghegan - 2

May 24, 2011

Dear Members,

Thank you for allowing me the time to present the enclosed letters as testimony to keep the City of St. Ann intact as part of my new district. I realize you have given much consideration to the new redistricting map however I feel to split the City of St. Ann into two separate districts would do a great disservice to the citizens of the city. I kindly request that you give great consideration to this simple compromise and allow me to continue to represent the great City of St. Ann.

Again, thanking you in advance.

Respectfully,

Eileen M. McGeoghegan, District 77

From Residents & Businesses of The City of St. Ann**

Re: Skaggs-Davis 1 House Plan

We appreciate the work done on the proposed redistricting of Missouri House Districts, but are concerned by the splitting of our community, the City of St. Ann. Half would form the new 83rd in a compact and contiguous district. But the northwestern quadrant of St. Ann would join Bridgeton in a proposed 82nd District that would stretch to Gumbo and Chesterfield.

St. Ann has historically remained in one State Representative District and has been well represented over those many decades. We fear that many residents of St. Ann would lose their collective voice in a district that traverses such a large part of St. Louis County over such diverse populations.

It would also appear that there is a relatively easy way to keep St. Ann intact since the new 82nd wraps around the new 83rd. A new line between these two proposed districts alone could solve our concerns.

We would respectfully request that you consider this change for the good of our community and thank you for the work you have put into your efforts thus far.

Sincerely,

We appreciate the work done on the proposed redistricting of Missouri House Districts, but are concerned by the splitting of our community, the City of St. Ann. Half would form the new 83rd in a compact and contiguous district. But the northwestern quadrant of St. Ann would join Bridgeton in a proposed 82nd District that would stretch to Gumbo and Chesterfield.

St. Ann has historically remained in one State Representative District and has been well represented over those many decades. We fear that many residents of St. Ann would lose their collective voice in a district that traverses such a large part of St. Louis County over such diverse populations.

It would also appear that there is a relatively easy way to keep St. Ann intact since the new 82nd wraps around the new 83rd. A new line between these two proposed districts alone could solve our concerns.

We would respectfully request that you consider this change for the good of our community and thank you for the work you have put into your efforts thus far.

Sincerely,

Chairwoman

Financial Institutions

Budget

Economic Development

Joint Committee on Corrections

TO:
House Apportionment Commission

re: Skaggs-Davis House Plan

Dear Committee Members:

As you consider proposals for reapportioning Missouri's 163 House districts, I urge you to carefully consider the under representation of African Americans both in the House as a whole and specifically in the City of St. Louis. As you may or may not know, of the 159 members currently serving in the Missouri House of Representatives, 14 are African Americans. The African American members represent 8.8 percent of the entire House membership. Contrast that to the fact that African Americans as a whole represent 11.6 percent of the population of the state of Missouri. This disparity, while minor to some, is indicative of the fact that African Americans as a population are underrepresented in the halls of government.

While I am concerned about the underrepresentation of African Americans in general, I am particularly focused on the potential for reapportionment to further undermine representation for African Americans in the City of St. Louis. According to 2010 Census data, 49.2 percent of the population of St. Louis City is made up of African Americans. In contrast, the proposed reapportionment map I have seen provides only four districts that are clearly African American out of the nine total districts for the City of St. Louis. It is my opinion that these districts clearly do not reflect the demographics of the area and would be an injustice to the many African Americans who call this area home.

Furthermore, I believe the proposed consolidation of historically African American districts in North St. Louis City would not adequately or fairly represent the voting interests of the people of St. Louis. As you move forward with this proposal, I urge you to carefully consider the underrepresentation of African Americans and the importance of drawing districts that fairly and adequately represent the people of Missouri. The City of St. Louis represents an area of the state that is strongly African American. The districts that are drawn for the city should reflect that fact.

Sincerely,

Jamilah Nasheed
State Representative – District 60
